She is exposed to adults and children from many cultures that live in her immediate neighborhood and in the mixed-use housing complex, where her parents own a bakery downstairs from their apartment. Nina manages to create regular adventures with her friends, her parents, and the grown-ups too because she is curious and determined to over-reach her abilities in pursuit of her goals. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animal characters and one three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing a solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes.

In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgement, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure--a fantasy transformation to animation--where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively.
