Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Floogals is an animated show starring three space aliens - Fleeker, Flo, and Boomer - who have been sent to earth to explore, investigate, discover, and report their findings to their superiors at Floogals headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman, (that's Floogal speak for human) the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching and note taking until they've figured out what and how their new discovery fits into the Hooman universe.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ruff-Ruff, Tweet and Dave is an animated show that puts an emphasis of logical thinking and use of language through fun problem-solving adventures. The trio RRTD is guided by Hatty, and erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their Roly-Pods, enter the Spin-Again transport vehicle and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the Roly-pods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animals characters and on three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show features a five-year-old 'baby' chick that spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy-eared rabbit, and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, dis-tractability, judgement, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-Decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character, Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entertaining and educational half-hour wildlife program shot exclusively in High Definition. The show introduces young viewers to every kind of animal imaginable, from the familiar to the astounding, including apes, giant lizards, sharks, and tigers, and all other animals from the Americas, Africa, Asia, Australia, and everywhere in between. Animal Atlas promotes a better understanding of how various animal species live and what they need to survive. Each episode stands alone as an entertaining look into the world of animals, whether visiting a particular group of animals, such as big cats, or meeting the animals of an entire continent. Through Animal Atlas, viewers discover the variety of places that animals live, how they find food, and how they play. The show also looks at how family units operate, from a community of thousands of prairie dogs, to a pride of lions, to a school of fish. Certain episodes also explore animal features such as diet, locomotion, adaptation, and how animals take care of their young. Along the way, Animal Atlas educates young viewers about endangered species and provides information on how to support wildlife conservation. For a population of young viewers attuned to the importance of going green, Animal Atlas is not only entertaining, it is culturally relevant and important. Animal Atlas offers an incredible and wildly entreating adventure through the animal world. Learning about animals had never been more fun. Just spin the globe. Anywhere, everywhere animals live, you will find Animal Atlas.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ruff-Ruff, Tweet, and Dave [RRTD] is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff-Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. RRTD might go to the beach, or the mountains, or to strange lands with pillows everywhere; just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. And their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Terrific Trucks is based on the idea that every big truck and earth moving vehicle has a real life and a very unique personality that fits the specific type of work they do. In this live-action series, actual big trucks are personified and live in their quarry ready to hit the road to complete all kinds of earth moving, heavy lifting, car crushing, and big maneuvering projects that are sent to their messenger, Mr. Bill Board, a huge digital sign that receives electronically delivered job requests for the team. Bill Board calls the team to assemble as he describes the work. Tork (an earnest dump truck and team leader) organizes the project and gives assignments to the team members. They are Sparky (an amiable front-end loader), Dug (a diligent and indispensable excavator for almost all the jobs), Stotz (an immaculate and vain 18-wheeler semi hauler), and Blinker (the youngest and playful mini front end loader). Invariably they have challenges and risks to manage with each job, but they get resolved with team efforts and mutual respect. Nonetheless, the best part of the day is coming home to the yard satisfied with what they have accomplished, and ready for a nice warm truck wash before they go in formation and sleep for the night.
