Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	4.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials, and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program aired on the main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians, and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays, pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks, he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode, the viewer is able to connect with these animals and learn how important they are to all life on the planet, as well as how sea life connects to life on the rest of the globe. This program aired on the main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wildlife expert Casey Anderson showcases his charismatic animal companions on an innovative and action-packed odyssey through North America's wild places. Through this program, viewers will have a rare glimpse into the beauty and complexity of the natural world. Viewers will follow Casey on a series of adventures, such as paddling the Grand Canyon, skiing with wolverines in British Columbia, observing mountain lions in Montana, staking out the scavengers of Yellowstone, investigating a raven's nest, observing polar bears on Alaska's northern slope, and climbing rugged extremes in pursuit of Maine's black bears. These adventures will bring the viewer a rare experience with endangered species - some deadly, others dashing, in the stunning natural ecosystem they call home. This program aired on the main digital stream.

Dog town follows the stories of orphaned, unwanted, or problem dogs who find their way to Best Friends Animal Society. They are each rehabilitated by volunteers and employees for adoption or spend the rest of their lives in foster care at the Dogtown facility. Viewers learn the proper treatment of animals, volunteerism and social responsibility. Episode examples include rescuing dogs from a puppy mill, and the staff launching a new program to turn shelter dogs into search and rescue dogs. This program will air on the main digital stream.

Program Title	Recipe Rehab
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays 9am-9:30am
Total times aired at regularly scheduled time	14
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program uses favorite, high calorie family recipes submitted by viewers as the basis of a face-off with two acclaimed chefs. Each chef must take a recipe and give a low calorie twist, demonstrating that foods don't have to be high in calories or fats to be delicious. As the chefs work through the challenge, the viewers will learn the value of healthy, wholesome ingredients, and how healthy food choices can have a positive effect on our quality of life. This program will air on the main digital stream.

Program Title	Think Big
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sundays 7:30am-8am
Total times aired at regularly scheduled time	13

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials, and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program will air on the main digital stream.

-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is an exciting and entertaining series which takes viewers on location to explore the magnificent and immense world of Africa's animals. Ushaka, a young South African host, takes the viewer from the brushlands of the Savanna to the great Okavango, and from the greatest game reserves to the most remote beaches of Madagascar, and more. The viewer will see everything from rare African birds to "creepy crawlers", to animal babies interacting with their mothers and siblings. The viewer will learn about life science as well as biological facts, which will educate the viewer about the natural activities of a species as well as its environment, the need for wildlife conservation, and how to better support the protection of endangered species. This program will air on the secondary digital strem, WTCN 43.2.
