Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	4.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each episode in this program consists of multiple, short-story segments based on a central topic. Episodes will focus on a relevant global issue and what's being done to solve it. Using real-live examples, FabLab illustrates how all the STEM disciplines work together to improve our lives and make the world better. Episode examples include middle school and high school students using science to make a difference in their communities' health and safety by reducing food waste, and with a tiny home design to help solve homelessness. This program aired on the station's main digital stream.
Does the Licensee identify the program by displaying throughout the program the symbol E/I?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Host Philippe Cousteau (grandson of famed undersea explorer Jacques Cousteau), brings energy to every location he visits while seeking to inspire and educate viewers in earth sciences. This program takes an in-depth look at the unique and distinct features on planet Earth, from magnificent mountains to erupting volcanoes. Viewers will not only behold the beauty of gigantic glaciers, but also discover why they formed and how they shaped our landscape. Geological experts share their wisdom with Philippe, as he strives to understand places on, inside, and above the Earth. This program aired on the station's main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is an exciting and entertaining series which takes viewers on location to explore the magnificent and immense world of Africa's animals. Ushaka, a young South African host, takes the viewer from the brushlands of the Savanna to the great Okavango, and from the greatest game reserves to the most remote beaches of Madagascar, and more. The viewer will see everything from rare African birds to "creepy crawlers", to animal babies interacting with their mothers and siblings. The viewer will learn about life science as well as biological facts, which will educate the viewer about the natural activities of a species as well as its environment, the need for wildlife conservation, and how to better support the protection of endangered species. This program aired on the station's secondary digital stream; 11.2.
