Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast!" follows the adventures of a crew of space animals who run the Astroblast Space Station - the coolest hangout in the galaxy. The team of animals who run it are the best of friends - Comet, Halley, Sputnik, Radar and Jet - all under the watchful eye of Sal the Octopus. But when you stick five friends with very different personalities in one place - things are bound to get messy. Through it all, the "Astroblast!" crew accept their differences, help one another, make new friends, and discover that getting along is always out of this world. Every day brings a new adventure - big and small - whether it involves getting ready for a surprise birthday party for a Gremulon princess, dealing with demanding dairy-obsessed customers from the Milky Way, making peace between two spaceships of hungry space pirates, or helping a scary-looking, but shy, visitor make friends when no one will sit with him at lunch. "Astroblast!" is a Sprout original series that is co-produced with Scholastic Media, a division of Scholastic Inc, the global children's publishing, education and media company. Astroblast! is inspired by the books of the same name by award-winning author and illustrator Bob Kolar.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Host Emily Callandrelli takes viewers on incredible journeys through space that will entertain and educate young viewers. Want to learn about gravity? How about watching our host wash her hair in zero gravity? Think volcanoes are spectacular? How about solar flares that shoot out from the sun at temperatures of 3.5 million degrees?! Is life as we know it possible on other planets? Experts debate the topic with differing opinions. Our host will visit various NASA facilities as we search for answers and learn about our universe. We will do shows about the stars, planets, comets, asteroids, moons, and much more. We will work with NASA to illustrate what we cannot see here on earth: the surfaces of planets, outer space weather, and galaxies millions of light years away. Want to know how the Mars Rover works? - we'll show you up close and personal. Every child who has looked up to the skies shares the wonderment expressed by 19th century poet and essayist, Ralph Waldo Emerson, who called the sky "the ultimate art gallery just above us." XPLORATION: OUTER SPACE captures the beauty of our majestic universe while teaching youngsters important lessons about science.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	What will the world look like in 2050? Where will advancements in science, technology, engineering, and math lead us? Our host takes viewers on a mind bending journey in search of these answers. Will we have personalized jet packs? How about childcare robots, artificial eyes, GPS shoes? Will there be space tourism in 2050? Is it possible to have colonies on the moon? Many technology experts think all these things are possible and, in some cases, even probable. Perhaps one day we will even have "downloadable dreams" to help us sleep better... Our host will visit with entrepreneurs who have started businesses developing futuristic ideas and products. Some of the most creative people in the world are science fiction writers and our host will visit with them as well. We will take a look at sci-fi movies of the past and see what "crazy" ideas have come to fruition. Our host will go to auto manufacturers to see where car technology is leading us...technology companies like Apple to see where consumer electronics are headed... doctors to hear what cures and inventions lie ahead... and inventors to learn what robots will be doing in 35 years. Anything and everything is possible when we use our imaginations...XPLORATION: EARTH 2050 spurs interest in children, teenagers, and adults to learn about how technology can make all of our lives better in the future.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character and Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art, and problem-solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Terrific Trucks is a live-action series that follows the exploits of five self-driving, heavy-duty construction trucks. They include Tork, the dump truck, Stotz, the flatbed, Dug, the digger, Blinker, the mini-digger, and Sparky, the front-end loader. The trucks reside in a fully-equipped truck yard/rock quarry and work as a team on various building projects that require planning, collaboration and implementation. Each truck brings specific skills and a distinct personality to the group. They get challenging job assignments from Mr. Bill Board, a digital outdoor screen that outlines and diagrams the problem to be solved. By allocating the role each truck will perform during the project, the group merges those unique skills to fulfill their respective assignments. Unexpected problems that could compromise their success-- such as the weather, broken truck parts, or personal conflicts between the trucks--- are addressed and overcome so the job can be completed.
