Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	6.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Program Title		Xploration Nature Knows Best
Origination		Syndicated
Days/Times Program Regularly Scheduled		Saturday, 7a, 9/10-9/24/16
Total times aired at regularly scheduled time		3
Total times aired		3
Number of Preemptions		0
Number of Preemptions for other than Breaking News		0
Number of Preemptions Rescheduled		0
Length of Program		30 mins

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.1] Xploration Nature Knows Best is hosted by Marine Biologist, Danni Washington, who exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. She states, we will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wing suits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior of ants - architects who design living buildings, and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.1] Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally-known with a video of him dropping the candy Mentos into a bottle of diet soda. It erupts in a geyser of soda. Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy.

Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.1] "Xploration Awesome Planet" is produced to inspire and educate anyone interested in earth sciences. Host Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location visited. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. Young viewers will not only see gigantic glaciers and behold their beauty, but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, providing in depth understanding relating to places on the earth, inside the earth, and above the earth. This is a program produced with the intention of increasing/expanding young viewers' interest in the field of STEM education (Science, Technology, Engineering, and Mathematics Education Coalition).

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.1] Each week host Emily Calandrelli takes viewers on incredible journeys through space that will both entertain and educate, in "Xploration Outer Space." Ever wonder what it would be like to live in space or on a different planet? Emily tries to perform every day responsibilities while floating in zero gravity, and explores the challenges that come along with living on a different planet, while she lives like an astronaut in a Mars-like habitat. Episodes will cover space robotics, commercial space tourism, asteroids, and our search for life. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content shown. This is a program produced with the intention of increasing /expanding young viewers' interest in the field of STEM education (Science, Technology, Engineering, and Mathematics Education Coalition).

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.1] This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Charlie and Kirby explore a new topic each week to uncover the Weird But True science at play all around us. With a mix of graphics and handmade art, this series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand. Teens learn to question the HOW and WHY behind the way our world works, and are encouraged to discover answers to their most curious questions.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.2 - This TV] "Wild About Animals" weekly animal magazine series is hosted by the Emmy-award winning actress Mariette Hartley. Mariette has committed herself to fighting for the rights of animals for over 20 years. It is the objective of the show to educate and inform children, by bringing them entertaining and interesting stories about the world's most fascinating animals. Each episode consists of four (4) different stories designed to teach children about both exotic and unique animals, as well as to educate them further about animals they see every day.

Total times aired	26
Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.2 - This TV] "Whaddyado" is designed to educate, inform, inspire and entertain teens, while providing opportunities to learn life lessons they would otherwise not be open to receive. Teens are exposed to real life situations during reenactments where developing important life saving skills is examined. By exposing the teen viewer to perilous situations which have already occurred, then, using interviews with the participants and instructions from experts, they are shown what the proper reaction should be when faced with similar life-threatening circumstances. The show also works to minimize the viewer's belief in their immortality, a priceless lesson for all teens. In the show's "moral dilemma" segment, teens are given a scenario which raises moral questions for which they're provided an expert's analysis of the costs and benefits of various courses of action, tackling the challenge head on. All in all, the program works to help develop the moral fiber of our nation's teens, each segment welcoming the opportunity for teens who seek to define themselves.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.3 - Escape TV] MISSING profiles the cases of missing children and adults, and offers internet safety tips and instructional messages from the Nat'l Center for Missing and Exploited Children. Sadly, we live in a world which seems to grow less safe with time. This show educates children regarding potential dangers, and how, specifically, to deal with these situations. It gives children a sense that they have the power and means to protect themselves when away from watchful eyes. The show includes real life stories using various resources to help find missing people, as well.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.3 - Escape TV] TEEN KIDS NEWS is a dynamic television news program for teens produced by teens. It provides information and news to students in a way that is educational as well as entertaining. The focus of the program is young people, so all the stories are in their own words. TKN inserts the clear informed voice of students into the adult-dominated media, and provides a unique perspective that is not currently available on network news programs. Weekly Reader provides educational content and works with teachers nationwide to download scripts to teach public speaking, reading, and writing skills.

Number of Preemptions Rescheduled	0
Length of Program	30 mins

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.3 - Escape TV] WORD TRAVELS follows the lives of two young professional travel writers Robin Esrock and Julia Dimon as they journey around the world in search of stories to experience, write about, and file for their editors. Esrock focuses on adventurous and physical stories, while Dimon focuses on cultural and people stories. Each episode has the duo investigating stories both separately and together. The series was shot in 36 countries across six continents, and helps viewers understand the geography and history of the places covered. The series allows teens to explore how individuals in various nations live their daily lives, and examines what are the differences in customs and languages in each locale. The series also demonstrates how to write stories about these destinations and what information is relevant to good story-telling. The episodes explore faraway places that most teen viewers may never study or hear about in the classroom.

For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand. Teens learn to question the HOW and WHY behind the way our world works, and are encouraged to discover answers to their most curious questions.

Program Title	Whaddydo
Origination	Network
Days/Times Program Regularly Scheduled	Sunday, 9a & 9:30a, 10/2-12/25/16
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.2 - This TV] "Whaddyado" is designed to educate, inform, inspire and entertain teens, while providing opportunities to learn life lessons they would otherwise not be open to receive. Teens are exposed to real life situations during reenactments where developing important life saving skills is examined. By exposing the teen viewer to perilous situations which have already occurred, then, using interviews with the participants and instructions from experts, they are shown what the proper reaction should be when faced with similar life-threatening circumstances. The show also works to minimize the viewer's belief in their immortality, a priceless lesson for all teens. In the show's "moral dilemma" segment, teens are given a scenario which raises moral questions for which they're provided an expert's analysis of the costs and benefits of various courses of action, tackling the challenge head on. All in all, the program works to help develop the moral fiber of our nation's teens, each segment welcoming the opportunity for teens who seek to define themselves.

Program Title	Missing
Origination	Network
Days/Times Program Regularly Scheduled	Saturday, 7a & 9:30a, 10/1-12/31/16
Total times aired at regularly scheduled time	28
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	[13.3 - Escape TV] MISSING profiles the cases of missing children and adults, and offers internet safety tips and instructional messages from the Nat'l Center for Missing and Exploited Children. Sadly, we live in a world which seems to grow less safe with time. This show educates children regarding potential dangers, and how, specifically, to deal with these situations. It gives children a sense that they have the power and means to protect themselves when away from watchful eyes. The show includes real life stories using various resources to help find missing people, as well.
