**Digital Core  
Programming**

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	10.5
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

<b>Digital Core Program (1 of 9)</b>	<b>Response</b>
Program Title	XPLORATION EARTH 2050
Origination	Syndicated
Days/Times Program Regularly Scheduled	SATURDAYS AT 7AM (10/1/16-12/31/16)
Total times aired at regularly scheduled time	14
Total times aired	14
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	What will the world look like in 2050. Where will advancements in science, technology, engineering, and mathematics lead us? Xploration Earth 2050 strives to answer these questions and more with scientists, inventors, doctors, science fiction writers, and creative thinkers. This half hour weekly series, produced primarily for the 13-16 year old target audience will appeal to the whole family. Viewers will be taken on an educational adventure as the show tackles future challenges in everything from transportation to health care to the environment. Xploration Earth 2050 is a half-hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.

Program Title	XPLORATION NATURE KNOWS BEST
Origination	Syndicated

Days/Times Program Regularly Scheduled	SATURDAYS AT 7:30AM (10/1/16-12/31/16)
Total times aired at regularly scheduled time	14
Total times aired	14
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants; architects who design living buildings and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best. Xploration Nature Knows Best is a half-hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 1316 target audience, XPLOATION Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the Weird But True science at play all around us. With a mix of graphics and handmade art, this EI series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand. On XPLOATION Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. XPLOATION Weird But True is a half-hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them.

Program Title	XPLORATION DIY SCI	
Origination	Syndicated	
Days/Times Program Regularly Scheduled	SATURDAYS 9:30A (10/1/16-12/31/16)	

Total times aired at regularly scheduled time	7
Total times aired	14
Number of Preemptions	7
Number of Preemptions for other than Breaking News	7
Number of Preemptions Rescheduled	7
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, XPLORATION DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step by step demonstrations of do it yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally known with a video of him dropping the candy Mentos into a bottle of diet soda. It erupts in a geyser of soda. On XPLORATION DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy. XPLORATION DIY Sci is a half hour weekly EI series produced with the intention of increasing and expanding our target audiences interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The four principal learning goals are supported and reinforced in the stories through themes drawn from the everyday experiences of young children. In each story, the familiar themes explicate a set of educational informational objectives. The educational informational learning objectives are summarized below. Goal 1 To support the child in the development of his her identity. Educational informational learning objectives. Children will learn to appreciate who they are and their individuality. Children will learn to appreciate good character traits such as trust, honesty, perseverance, responsibility, Children will learn that it takes courage to go against group expectations. Children will learn that there are consequences to not fulfilling a commitment. Children will learn that imagination helps us understand ourselves and other people. Goal 2 To urge the child to communicate and create bonds with people around him her. Educational informational learning objectives. Children will learn that love can be expressed in many different ways Children will learn that they have the right to ask for what they want but they may not always get it. Children will learn that talking about feelings can help and keeping feelings in can hurt. Children will learn to make, nurture, and value friendships. Children will learn that compromise and cooperation are necessary and important. Children will learn that competition is normal and that winning isnt everything. Children will learn that doing chores can be a way of showing love. Goal 3 To encourage the child to adopt attitudes and behaviors that are open to differences. Educational informational learning objectives. Children will learn that being different can be a source of pride. Children will learn that different individuals have something unique to offer the world. Children will learn that skills and abilities are not specific to gender. Children will learn that it is hurtful to pick on, dismiss or make fun of those who are different. Goal 4 To nourish a desire within the child for learning and discovering new things. Educational informational learning objectives. Children will learn to recognize the value of regular exercise. Children will learn to recognize and appreciate the value of eating a variety of healthy foods. Children will learn the value of several safety practices. Children will learn that recycling can be fun. Children will learn about ecology and the environment. Children will learn the reasons for and the practice of good manners. Children will learn the value of money.</p>

Length of Program	0 mins
Age of Target Child Audience	4 years to 7 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	After bidding farewell to his Aunt Lucy in darkest Peru, Paddington Bear sails off and eventually finds himself alone in Paddington Station. The label around his neck reads simply, Please look after this bear. Thank You. When the Brown family takes him in, they get a lot more than they bargained for. Paddington is a stranger in a strange land and much of the charm of his adventures comes from his unique way of looking at the world. Many things others take for granted are exactly what he finds so fascinating and worthy of investigation. Paddington Bear has a knack for turning everyday life into an all out adventure. Helpful and curious, Paddington always puts his paws where he shouldnt and inevitably finds himself in sticky situations. He doesn't go looking for adventure, it just seems to find him.

Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design living buildings and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best. Xploration Nature Knows Best is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.

Program Title	XPLORATION OUTER SPACE
---------------	------------------------

Origination	Syndicated
-------------	------------

Days/Times Program Regularly Scheduled	SATURDAYS AT 8:00AM (1/1/17-3/31/17)
--	--------------------------------------

Total times aired at regularly scheduled time	12
---	----

Length of Program	30 mins
-------------------	---------

Age of Target Child Audience from	13 years to 16 years
-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This half hour weekly series produced for the 13 16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet. Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. Xploration Outer Space is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.

Program Title	XPLORATION WEIRD BUT TRUE
Origination	Syndicated
Days/Times Program Regularly Scheduled	SATURDAYS AT 9:00AM (1/1/17-3/31/17)
Total times aired at regularly scheduled time	12
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13 16 target audience, XPLOATION Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the Weird But True science at play all around us. With a mix of graphics and handmade art, this EI series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand. On XPLOATION Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. XPLOATION Weird But True is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them.

Program Title	XPLOATION DIY SCI
---------------	-------------------

Origination	Syndicated
-------------	------------

Days/Times Program Regularly Scheduled	SATURDAYS AT 9:30AM (1/1/17-3/31/17)
--	--------------------------------------

Total times aired at regularly scheduled time	12
---	----

Length of Program	30 mins
-------------------	---------

Age of Target Child Audience from	13 years to 16 years
-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 1316 target audience, XPLOATION DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step by step demonstrations of do it yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally known with a video of him dropping the candy Mentos into a bottle of diet soda. It erupts in a geyser of soda. On XPLOATION DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy. XPLOATION DIY Sci is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home.

Program Title	WIMZY'S HOUSE ON D2
---------------	---------------------

Origination	Network
-------------	---------

Days/Times Program Regularly Scheduled	M-SU 7:00AM (1/1/17-3/31/17)
Total times aired at regularly scheduled time	90
Length of Program	30 mins
Age of Target Child Audience from	2 years to 6 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

The four principal learning goals cited above are supported and reinforced in the stories through themes drawn from the everyday experiences of young children. In each story, the familiar themes explicate a set of educational informational objectives. The educational informational learning objectives are summarized below, Goal 1 To support the child in the development of his or her identity. Educational informational learning objectives Children will learn to appreciate who they are and their individuality. Children will learn to appreciate good character traits such as trust, honesty, perseverance, responsibility, Children will learn that it takes courage to go against group expectations. Children will learn that there are consequences to not fulfilling a commitment. Children will learn that imagination helps us understand ourselves and other people. Goal 2, To urge the child to communicate and create bonds with people around him or her. Educational informational learning objectives, Children will learn that love can be expressed in many different ways Children will learn that they have the right to ask for what they want but they may not always get it. Children will learn that talking about feelings can help and keeping feelings in can hurt. Children will learn to make, nurture, and value friendships. Children will learn that compromise and cooperation are necessary and important. Children will learn that competition is normal and that winning isnt everything. Children will learn that doing chores can be a way of showing love. Goal 3, To encourage the child to adopt attitudes and behaviors that are open to differences. Educational informational learning objectives, Children will learn that being different can be a source of pride. Children will learn that different individuals have something unique to offer the world. Children will learn that skills and abilities are not specific to gender. Children will learn that it is hurtful to pick on, dismiss or make fun of those who are different. Goal 4, To nourish a desire within the child for learning and discovering new things. Educational informational learning objectives, Children will learn to recognize the value of regular exercise. Children will learn to recognize and appreciate the value of eating a variety of healthy foods. Children will learn the value of several safety practices. Children will learn that recycling can be fun. Children will learn about ecology and the environment. Children will learn the reasons for and the practice of good manners. Children will learn the value of money.
