Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (ie encouraging the viewer to assist on-screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Save our Shelter is a series focusing on the "rescue" of animal shelters and pets in need across America. Each week, hosts Rocky Kanaka and Rob North, with the help of local community members, transform rundown shelters into highly functioning pet showplaces in the hopes that a new facade will ultimately result in more adoptions and more lives saved. Produced for children 13-16 years old, Save Our shelter will inform young people about the urgent need for pet adoption throughout the United States and how providing a clean and well-equipped home is essential to a pet's healthy lifestyle. Save Our Shelter will demonstrate to young people that the proper care of pets reflects our best human qualities. By expressing this ultimate example of kindness, teens will learn an important educational lesson that will stay with them for life.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (ie encouraging the viewer to assist on-screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning.
