| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>Animal trainer Brandon McMillan operates a training facility known as the Lucky Dog Ranch, where his mission is to rescue hard-to-love and untrained dogs and find them homes. The show focuses on exercising responsibility and on developing a sense of appreciation for life and animals. Life lessons are an integral part of the overarching theme of rescuing these animals from death and providing a second chance for life. Following McMillan's investigations into how to retrain these animals to make them welcome members in the homes of families is both educational and inspirational - encouraging this demographic to become sensitive to our own and others' behavior and teaching how we as individuals can make a difference. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Animal Exploration with Jarod Miller is an animal documentary TV series developed by Litton Entertainment that follows Jarod Miller, an animal aficionado and educator, as he travels around the world bringing the viewers into the up-close and personal world of the animal kingdom. Each episode typically runs with a theme from the fastest animals to large and small, flying or running, to the oddly human habits some creatures have with us to the creepiest looking critters out in the wilderness. A lifelong animal lover, host Jarod Miller utilizes his zoology and animal behavior background to highlight the quirks and amazing talents of the animal species, often sharing his sometimes crazy adventures (he was sprayed by baby skunks smuggled into his mothers's car), as he keeps the viewers on their toes with this fun, rough-and-tumble exploration. No creature too small, too large, too fast, or even too ugly is going be forgotten in the informative and inspiring Animal Exploration with Jarod Miller. |
