Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Calling Dr. Pol is a weekly half-hour series that explores the fascinating occupation of veterinary medicine. Designed to educate and inform viewers aged 13-16 and the entire family this inspiring series invites viewers to share in the experiences of Dr. Pol. An enthusiastic and naturally-inclined and well-rounded scholar, Dr. Pol has been practicing veterinary medicine for over 35 years. Caring for more than 19,000 patients, Dr. Pol has seen it all. Specializing in large farm animals, Dr. Pol, his family and veterinary staff also care for animals of all shapes and sizes. Each week audiences will have a chance to understand the challenges and rewards of this fulfilling profession and learn that the work doesn't end at the clinic; Dr. Pol often takes his talents to the road by helping sick or injured animals on neighboring farms and ranches. With the added benefit of Dr. Pol's expert analysis and on-screen factoids, viewers will have the opportunity to learn about the biology and behavior of various domesticated animals and livestock. Unstoppable and unflappable, this Doc is a legend in the community and provides an entertaining view of the veterinary profession. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Airs on the main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist Danni Washington exudes energy as she relates how current technology was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds and in helicopters influenced by the dragonfly and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants architects who design living buildings and roboticists who are making their designs bigger stronger and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all nature knows best. Xploration Nature Knows Best is a halfhour weekly E/I series produced with the intention of increasing and expanding our target audience interest in the field of STEM educationThis program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience XPLORATION DIY Sci will inspire and educate audiences of all ages. Host science educator and leader in the field of professional educational training Steve Spangler encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun relaxed attitude Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance Steve Spangler became nationally-known with a video showing him dropping the candy Mentos into a bottle of diet soda. It erupts in a geyser of soda. On XPLORATION DIY Sci, Spangler demonstrates the experiment and also explains the science of why on a molecular level the soda reacts that way to the candy. XPLORATION DIY Sci is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 7:00-7:30AM
Total times aired at regularly scheduled time	14
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Calling Dr. Pol is a weekly half-hour series that explores the fascinating occupation of veterinary medicine. Designed to educate and inform viewers aged 13-16 and the entire family this inspiring series invites viewers to share in the experiences of Dr. Pol. An enthusiastic and naturally-inclined and well-rounded scholar, Dr. Pol has been practicing veterinary medicine for over 35 years. Caring for more than 19,000 patients, Dr. Pol has seen it all. Specializing in large farm animals, Dr. Pol, his family and veterinary staff also care for animals of all shapes and sizes. Each week audiences will have a chance to understand the challenges and rewards of this fulfilling profession and learn that the work doesn't end at the clinic; Dr. Pol often takes his talents to the road by helping sick or injured animals on neighboring farms and ranches. With the added benefit of Dr. Pol's expert analysis and on-screen factoids, viewers will have the opportunity to learn about the biology and behavior of various domesticated animals and livestock. Unstoppable and unflappable, this Doc is a legend in the community and provides an entertaining view of the veterinary profession. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/l designation and appropriate age groups have been provided to publishers of program guides. Program Title	Xploration Weird But True II (22.2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sundays, 12:00-12:30 PM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman, Charlie is and Ecologist and Kirby is an Artist, and they both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. XPLORATION Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. This program is specifically designed to further the educational and informational needs of children,has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for the E/I designation and appropriate age groups have been provided to publishers of program guides. Airs on the 2nd digital stream.

Days/Times Program	Sundays, 12:30-1:00 PM
Regularly Scheduled	
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience XPLORATION DIY Sci will inspire and educate audience of all ages. Host science educator and leader in the field of professional educational training Steve Spangle encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun relaxed attitude Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance Steve Spangler became nationally-known with a video showing him dropping the candy Mentos into a bottle of diet soda. It erupts i a geyser of soda. On XPLORATION DIY Sci, Spangler demonstrates the experiment and also explains the science of why on a molecular level the soda reacts that way to the candy. XPLORATION DIY Sci is a half hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules; the objective and target audience is specified in this report; and the instructions for th E/I designation and appropriate age groups have been provided to publishers of program guides. Airs on t 2nd digital stream.
