Digital Core
Programming

| Question | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream | 3.0 |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream | 336.0 |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671: | 6.0 |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673? | Yes |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Awesome Planet This series will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location visited. From magnificent mountains to violent volcanoes, this program takes an in depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Nature Knows Best This series will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington , exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. We will also meet with biologists studying the behavior patterns of ants; architects who design living buildings; and roboticists who are making their designs bigger, stronger and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. |

|--|---|
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Raggs-Raggs is a musical & educational preschool series starring five colorful canines. They are not your average dogs they are also talented musicians who make great rock n roll music as The Raggs Band. With over 200 original songs, the power of the music & humor stimulate children to become actively involved in learning. Raggs introduces children to elements that span the preschool curriculum, working to nurture their sense of self & others, and to foster a strong motivation to learn and achieve. Each episode follows the band through engaging, emotional and humorous stories that rock the house and explore issues faced by real kids. The characters chemistry and friendship is immediately evident as they work through a series of creative and often humorous steps to find a successful conclusion to everyday challenges. Music is an integral part of this fast-paced show and provides a hook to engage young viewers as the band goes from one adventure to the next. Each program is based on one main theme that promotes social and academic readiness while also addressing specific preschool curriculum topics. Each show also focuses on the development of social and emotional skills, and models cooperation between friends. The format is innovative and contemporary in its ability to knit together and reinforce a single theme through the use of various segments: live action clubhouse segments, animation shorts, music videos and interviews with children by the bands wisecracking pet cat, Dumpster. Interactive studio concerts featuring real-life fans and a Wag & Wiggle dance segment promote movement and physical fitness adding another dimension and heightening the entertainment value. |
