# Digital Core Programming

| Question  | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream  | 3.0      |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream  | 336.0    |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:  | 7.0      |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?  | Yes      |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes      |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Career Day is a television program that introduces our youth to career exploration and awareness. Student often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training needed to prepare for the job, and the experiences that led them to choose their career. To encourage students to make informed decisions, they must be introduced to career awareness, such as the concept that success in most careers requires education and training. Middle school is an idea age at which to expose students to the challenging world of work. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage postsecondary education. Each segment of Career Day delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, dedication, and perseverance children can apply to their lives. |

| Age of<br>Target Child<br>Audience   | 13 years to 16 years  |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Think Big serves the educational and informational needs of children 13 to 16 years of age with its progration content, including the importance of having a working knowledge of science, technology, engineering and math (STEM). The series shows children actively solving problems using scientific principles, combining and creativity. The series also demonstrates real world applications for math, science, and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents an "invent-challenge, where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills. They are given the same material to work with, with each team taming their own novel approach to solving the problem, demonstrating their skills in design, physics, and electronics. Using teamwork and ingenuity, both teams succeed in producing a working machine, but only team wins, based on superior performance. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Calling Dr. Pol is a weekly half-hour series that explores the fascinating occupation of veterinary medicine. Designed to educate and inform viewers aged 13-16 and the entire family this inspiring series invites viewers to share in the experiences of Dr. Pol. An enthusiastic and naturally-inclined and well-rounded scholar, Dr. Pol has been practicing veterinary medicine for over 35 years. Caring for more than 19,000 patients, Dr. Pol has seen it all. Specializing in large farm animals, Dr. Pol, his family and veterinary staff also care for animals of all shapes and sizes. Each week audiences will have a chance to understand the challenges and rewards of this fulfilling profession and learn that the work doesn't end at the clinic; Dr. Pol often takes his talents to the road by helping sick or injured animals on neighboring farms and ranches. With the added benefit of Dr. Pol's expert analysis and on-screen factoids, viewers will have the opportunity to learn about the biology and behavior of various domesticated animals and livestock. Unstoppable and unflappable, this Doc is a legend in the community and provides an entertaining view of the veterinary profession. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Career Day is a television program that introduces our youth to career exploration and awareness. Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training needed to prepare for the job, and the experiences that led them to choose their career. To encourage students to make informed decisions, they must be introduced to career awareness, such as the concept that success in most careers requires education and training. Middle school is an ideal age at which to expose students to the challenging world of work. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage postsecondary education. Each segment of Career Day delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, dedication, and perseverance children can apply to their lives. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Think Big serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of science, technology, engineering and math (STEM). The series shows children actively solving problems using scientific principles, combining skil and creativity. The series also demonstrates real world applications for math, science and engineering proving that the physical sciences can be useful, challenging and fun. Each episode presents and "invent-off" challenge, where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills. They are given the same material to work with, with each team taming their own novel approach to solving the problem, demonstrating their skills in design, physical and electronics. Using teamwork and ingenuity, both teams succeed in producing a working machine, but only one team wins, based on superior performance. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Animal Atlas explores the world of wildlife in a blend of education and entertainment. Some episodes focus solely on one animal, whereas others are organized in themes, including habitats, antics, locomotion and animal babies. Endangered species and conservation are also addressed. It gives the viewer a better understanding of how different animal species live and what they need to survive. This series deals with different topics like Animal Appetites, Animal Antics, Animal Babies, and also has shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows viewers go on a thorough and entertaining exploration of the specific animal that takes them into that animal's world as they see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Teen Kids News is the first kid-to-kid newscast created for and delivered by children. Hosted by a diverse news team made up of young "journalists" reporting from a professional news set and from the field on stories of interest and educational value to its own audience. Emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian, Caucasiar male and female child actors who interact with each other and connect to the viewers. This program meets the needs of children whose sophistication and curiosity about their world is motivated by the information explosion. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming.   | Sports Stars of Tomorrow displays the hard work and dedication that it takes to be a true sports star. It chronicles the trials and tribulations of the young athletes as they strive to become a top level performer in the sports arena. The program helps youngsters realize that their full potential in both life and the playing field are attainable with lots of hard work and determination. It reinforces the importance of key values like dedication, discipline, commitment and community involvement. The show also provides indepth, human interest stories that reveal the important challenges and lessons that mold our young athletes. Not everyone is cut out to be a superstar. Sports Stars of Tomorrow recognize those athletes that have learned life lessons along the way while battling varying obstacles. These stories inspire and teach youth that while many desire greatness on the grand stage of competition, much can be learned through the journey that can make a significant difference throughout one's life. |

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed nonbroadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.

"WNCF TRANSMITS ON RF CHANNEL 31 BUT IS KNOWN TO ITS VIEWING AUDIENCE AS CHANNEL 32. THE LATTER IS USED IN THIS REPORT TO IDENTIFY THE PROGRAMS AIRING ON EACH OF ITS MAIN AND MULTICAST STREAMS. On January 21, 2017 WNCF (32.1), WBMM (32.2), and WAKA Weather Channel (32.3) aired severe weather coverage that affected Digital Core Programming starting at 7:03 A.M., and ending at 9:47 A.M. Listed below are the programs and times that were pre-empted due to this breaking weather coverage. WNCF (32.1): Dragon Fly, 8-8:30 A.M., Biz Kids, 8:30-9 A.M., Career Day, 9-9:30 A.M., and Think Big, 9:30-10 A.M. WBMM (32.2): Calling Dr. Pol, 7-8 A.M., and The Dog Whisperer With Cesar Millan, 8-10 A.M. WAKA Weather Channel (32.3): Dragon Fly, 8-8:30 A.M. Each morning, children from local elementary schools in the area give the Pledge of Allegiance during the early morning news program. Future Weather Forecasters started predicting the weather on the early morning news program on Friday, February 10, and will be on each week until April 28. Auditions were held and winners were chosen from the 6-12 year old boys and girls who tried out to forecast the weather each Friday morning with Meteorologist Ryan Stinnett. During the quarter, Golden Apple Awards were presented to teachers in the following counties: Montgomery (3), Marengo, Bullock, Crenshaw, Lowndes, and Perry. Some of their students were featured on camera and told how their teachers inspire, encourage, entertain, and love and care for them. They said their teachers are fun, make learning fun, and are always there for them. One teacher uses small groups to reach his students one-on-one, play games, and do anything that involves them moving around. Many said that their teachers are like parents to them. Meteorologists Ryan Stinnett and Ben Lang participated in the Annual Career Day at McKee Middle school, meteorologists and anchors including John Ninke, Shane Butler, Olivia Dees, and Stefanie Hicks read at different elementary schools throughout the week during Read Across America Week that is celebrated all across the country. They read Dr. Seuss' books to the students. Stories on Montgomery Public school's takeover, school closings, failing schools, a Blue Ribbon School, Job Shadowing, Pre-K Applications, MPACT Career Tech, Pike County Career Tech, Severe Weather Shelters at a middle school, and an Emergency Management course taught at a local school were featured on our newscasts during the quarter. The station will continue to provide the best E/I programming that is available for the youth in the River Region.

Think Big serves the educational andinformational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of science, technology, engineering and math (STEM). The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents and "Invent-off" challenge where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills. They are given the same material to work with, with each team taming their own novel approach to solving the problem, demonstrating their skills in design, physics and electronics. Using teamwork and ingenuity, both teams succeed in producing a working machine, but only one team wins, based on superior performance. (STATION BROADCASTS IN DIGITAL ONLY)

educational and informational objective of the program and how it meets the definition of Core Programming.

Describe the

Animal Atlas explores the world of wildlife in a blend of education and entertainment. Some episodes focus solely on one animal, whereas others are organized in themes, including habitats, antics, locomotion and animal babies. Endangered species and conservation are also addressed. It gives the viewer a better understanding of how different animal species live and what they need to survive. This series deals with different topics like Animal Appetites, Animal Antics, Animal Babies, and also has shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows wiewers go on a thorough and entertaining exploration of the specific animal that takes them into that animal's world as they see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. Calling Dr. Pol is a weekly half-hour series that explores the fascinating occupation of veterinary medicine. Designed to educate and inform viewers aged 13-16 and the entire family this inspiring series invites viewers to share in the experiences of Dr. Pol. An enthusiastic and naturally-inclined and well-rounded scholar, Dr. Pol has been practicing veterinary medicine for over 35 years. Caring for more than 19,000 patients, Dr. Pol has seen it all. Specializing in large farm animals, Dr. Pol, his family and veterinary staff also care for animals of all shapes and sizes. Each week audiences will have a chance to understand the challenges and rewards of this fulfilling profession and learn that the work doesn't end at the clinic; Dr. Pol often takes his talents to the road by helping sick or injured animals on neighboring farms and ranches. With the added benefit of Dr. Pol's expert analysis and on-screen factoids, viewers will have the opportunity to learn about the biology and behavior of various domesticated animals and livestock. Unstoppable and unflappable, this Doc is a legend in the community and provides an entertaining view of the veterinary profession. (STATION BROADCASTS IN DIGITAL ONLY)

Career Day is a television program that introduces our youth to career exploration and awareness. Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training needed to prepare for the job, and the experiences that led them to choose their career. To encourage students to make informed decisions, they must be introduced to career awareness, such as the concept that success in most careers requires education and training. Middle school is an ideal age at which to expose students to the challenging world of work. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage postsecondary education. Each segment of Career Day delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, dedication, and perseverance children can apply to their lives. (STATION BROADCASTS IN DIGITAL ONLY)
