Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids Adventures provides CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children's lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth-the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic related to the entire ecosystem of the Earth. Aqua Kids Adventures provides kids with a way to learn about the diversity of marine animals around the world and the importance of preserving their fragile aquatic habitats. Through the use of hands-on collaboration between kids and science researchers and educators, Aqua Kids Adventures encourages children to take an active role in protecting the future of their communities and the world.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. Mickey Mouse Clubhouse is a lively preschool series featuring classic Disney characters including Mickey and Minnie Mouse, Donald and Daisy Duck, Goofy, and Pluto. In each episode, viewers are invited to help the characters solve a problem using age-appropriate critical thinking, problem solving, and mathematical skills. Once the problem is explained, Mickey and friends embark on entertaining adventures, working together to solve the problem with the help of various "Mouseketools" everyday objects that turn out to be useful tools for problem solving. The series uses engaging stories, physical and verbal humor, and music to keep viewers interested and invested in helping Mickey and friends solve the problems at hand.

Days/Times Program Regularly Scheduled	SA, 10:00AM & 10:30AM
Total times aired at regularly scheduled time	28
Length of Program	30 mins
Age of Target Child Audience from	3 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Handy Manny introduces concepts related to construction, building, engineering, and technology to preschool audiences through engaging, relatable stories about Sheetrock Hills' lovable handyman, Manny and his neighbors and friends. In each episode, one of Manny's neighbors calls with a problem. Manny is always willing to help! With the help of his tools a lively bunch of friends, each with strengths and challenges of their own Manny is able to assess problems, ask questions, come up with solutions, and make any repairs necessary to help his neighbors. Whether the problems is a broken scooter or a clogged sink, Manny is able to find a solution using his knowledge of construction principles and how machines work. Manny's neighborhood is a multicultural community with a rich Latino heritage. Manny and his neighbors participate in a number of Latino traditions, festivals and holidays. Spending time with Manny and his neighbors in Sheetrock Hills is guaranteed to be both fun and informative for viewers!

Origination	letwork			
Days/Times Program Regularly Scheduled	SA, 10:30AM & 11:00AM			
Total times aired at regularly scheduled time	28			
Length of Program	30 mins			
Age of Target Child Audience from	3 years to 16 years			
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Better Planet explores the importance of learning about our environment and ways to improve the quality of life with practical behavior changes that protect the environment and everyone in it. The series features stories from around the world showcasing the various innovative ways people are engaging to produce new products and new sources of energy, all the while saving money to better the environment. In each episode, new scientific discoveries along with practical applications are examined to show how easy it is to reduce wasteful consumption, recycle various products and improve the quality of life. Young viewers learn the science behind these changes while challenging their critical thinking about the current state of our environment.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. Walking Wild at the San Diego Zoo is a series that explores the world of wild and exotic animals, how they live and are cared for at the San Diego Zoo. The show focuses on the dedicated people who look after these spectacular critters, all along teaching young viewers about the animal kingdom. The program gives teen viewers a unique up-close examination of how different each animal is and the different needs they have. For example the life span of an elephant and the key to their longevity. From Tasmanian Devils to Galapagos turtles the show will inspire viewers to be kind and respectful to animals.

Program Title	Wild Wonders (fourth digital stream)				
Origination	Network				
Days/Times Program Regularly Scheduled	SA, 12:00PM				
Total times aired at regularly scheduled time	14				
Length of Program	30 mins				
Age of Target Child Audience from	13 years to 16 years				
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wild Wonders is a weekly half-hour reality series allowing teen viewers to become familiar with various wild animals at the world famous San Diego Zoo. The series focuses on various critters and examines their differences. The program also provides important information about each animal's living habits and includes interviews with people who care for them. In one episode, viewers learn about the unique relationship between a cheetah and a dog. Another episode spotlights the various eating habits of different animals. This program educates viewers on the life in the animal kingdom. Young viewers will learn and understand how animals survive in a human world and more importantly their minds will open up to new and spectacular animals.
