**Digital Core
Programming**

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	7.5
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Age of Target Child Audience		13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In this program, children learn about biomimicry and see how engineers imitate nature in the design of innovative products. They learn how the Manta Ray has inspired inventions related to ocean navigation as well as military applications; and how snakes have been copied to design robots that can rescue those trapped in small spaces. This program features the incredible world of animals and plants, and the inventions inspired by them. This program aired on the station's main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week, host Emily Calandrelli takes incredible journeys through space that will both entertain and educate viewers. Ever wonder what it would be like to live in space or on a different planet? Emily shows viewers what it is like to try to perform everyday tasks while floating in zero gravity and living in a Mars-like habitat. Episodes feature space robotics, commercial space tourism, asteroids, the search for other life in space, and many other topics, including NASA-related programs as applicable to the episodes. This program aired on the station's main digital stream.

Number of Preemptions Rescheduled	2
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Host Philippe Cousteau (grandson of famed undersea explorer Jacques Cousteau), brings energy to every location he visits while seeking to inspire and educate viewers in earth sciences. This program takes an in-depth look at the unique and distinct features on planet Earth, from magnificent mountains to erupting volcanoes. Viewers will not only behold the beauty of gigantic glaciers, but also discover why they formed and how they shaped our landscape. Geological experts share their wisdom with Philippe, as he strives to understand places on, inside, and above the Earth. This program aired on the station's main digital stream. The episode scheduled on Saturday, May 13th, was joined in progress at 10:40am following a live event, in order to get on time for other E/I programming scheduled at 11:00am.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program features weekly educational features, such as "College and You" (tips for choosing and getting into college), and "Word" (vocabulary skills training), as well as informational features for teens: reports about healthy eating, driving tips for new drivers, and internet predators. The program has been designed to meet needs of children and young adolescents with a unique curiosity about their world, with weekly headlines that present the news in a teen-appropriate manner. The program stimulates the viewer's curiosity, develops learning, cognitive, listening and thinking skills, and serves as an enhancement to the viewer's academic and educational experience. This program aired on the station's main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is an exciting and entertaining series which takes viewers on location to explore the magnificent and immense world of Africa's animals. Ushaka, a young South African host, takes the viewer from the brushlands of the Savanna to the great Okavango, and from the greatest game reserves to the most remote beaches of Madagascar, and more. The viewer will see everything from rare African birds to "creepy crawlers", to animal babies interacting with their mothers and siblings. The viewer will learn about life science as well as biological facts, which will educate the viewer about the natural activities of a species as well as its environment, the need for wildlife conservation, and how to better support the protection of endangered species. This program aired on the station's secondary digital stream; 11.2.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Much of the food Americans eat is produced by farmers and ranchers in the country's heartland, but many children don't know how it's produced. America's Heartland provides information about the people and processes responsible for the availability of food and fuel across the country and around the world. The show's reporters and producers tell stories in topics that include farm families, consumer issues, animal welfare and crop sustainability. Children will learn about the production of the food and fuel they consume. Some episodes also take the show abroad to countries such as Egypt and Taiwan, to show the impact American agriculture has on the global economy. This program aired on the station's third digital stream; 11.3.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program aired on the station's third digital stream; 11.3.

Origination	Network
Days/Times Program Regularly Scheduled	Saturday: 8/26-9/30/17, 10:30am
Total times aired at regularly scheduled time	6
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wildlife expert Casey Anderson showcases his charismatic animal companions on an innovative and action-packed odyssey through North America's wild places. Through this program, viewers will have a rare glimpse into the beauty and complexity of the natural world. Viewers will follow Casey on a series of adventures, such as paddling the Grand Canyon, skiing with wolverines in British Columbia, observing mountain lions in Montana, staking out the scavengers of Yellowstone, investigating a raven's nest, observing polar bears on Alaska's northern slope, and climbing rugged extremes in pursuit of Maine's black bears. These adventures will bring the viewer a rare experience with endangered species - some deadly, others dashing, in the stunning natural ecosystem they call home. This program will air on the station's secondary digital stream; 11.2.

-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The program's young host, Claire Thomas, shows viewers how everyday life can inspire culinary creations. In each episode, Claire shows how food can be used as a tool to explore new places, meet new people and learn about new cultures. The inspiration for the food prepared on the program can come from family, friends or people asking for her expertise. No matter how exotic or familiar the location, Claire is always in search of new tastes. While teaching the viewer how to prepare the particular inspired dish, she also promotes a healthy attitude towards food and life. This program will air on the station's secondary digital stream; 11.2.

Program Title	America's Heartland
---------------	---------------------

Origination	Network
-------------	---------

Days/Times Program Regularly Scheduled	Saturday: 7/1-9/30/17, 7:00am
--	-------------------------------

Total times aired at regularly scheduled time	14
---	----

Length of Program	30 mins
-------------------	---------

Age of Target Child Audience from	13 years to 16 years
-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Much of the food Americans eat is produced by farmers and ranchers in the country's heartland, but many children don't know how it's produced. America's Heartland provides information about the people and processes responsible for the availability of food and fuel across the country and around the world. The show's reporters and producers tell stories in topics that include farm families, consumer issues, animal welfare and crop sustainability. Children will learn about the production of the food and fuel they consume. Some episodes also take the show abroad to countries such as Egypt and Taiwan, to show the impact American agriculture has on the global economy. This program will air on the station's third digital stream; 11.3.

Program Title	Think Big
Origination	Network
Days/Times Program Regularly Scheduled	Sunday: 7/2-9/24/17, 8:00am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program will air on the station's third digital stream; 11.3.
