Describe the educational and informational objective of the program and how it meets the definition of Core Programming.		Americans are famously terrible about geography. The last Roper Geographic Literacy Poll showed only half of young Americans could identity New York State on a map. Less than that could find Ohio. Perhaps part of the problem was that there was no television program that entertained while educating about the nations states. There is now. State to State from Bellum Entertainment blends maps, history, and facts with eye-catching visuals and clever narratives that move quickly through some of the very interesting geography in our diverse country.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audiences interest in the field of STEM education.
