Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The half-hour weekly series, Ocean Mysteries, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. Hosted by Jeff Corwin, Ocean Mysteries is produced for ages 13-16 - and beyond - by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the 'family dynamics' of the mingling species, viewers will get to know and care about these heroes, and all of the fascinating life teeming in our oceans.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The half-hour weekly series, Sea Rescue, features the rescue, rehabilitation and in many instances - release back into the wild of ocean wildlife. Produced for ages 13-16, Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, Sea Rescue will leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Rock the Park is a weekly half-hour series produced and designed to educate and inform children 13-16 years of age and taps into America's love affair with our national parks. In this awe-inspiring and entertaining series our hosts, Jack Steward and Colton Smith, come face to face with nature and some of the most amazing places on earth. Viewers will witness the fascinating underwater world of Dry Tortugas National Park in Florida, which is home to the world's most unique coral and marine life. They'll watch as Jack and Colton raft their way through Alaska's remote Aniakchak National Monument and Preserve, spotting the region's famous brown bears. Viewers will reach new heights as Jack and Colton embark on their biggest climbing challenge yet - The Grand Teton in Wyoming's Grand Teton National Park.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Litton Entertainment is the producer of the Vacation Creation with Tommy Davidson and Andrea Feczko series. This is a live action, weekly half-hour television program designed to meet the educational and informational needs of children 13-16 years of age. Our hosts, Tommy and Andrea, guide one deserving family on amazing adventures as they experience a new destination together on their family vacation. As our featured family embarks on an interactive voyage filled with immersive learning opportunities, each episode brings us to diverse locations where our family and views discover unique cultural events, food, activities and traditions. From discovering the wondrous glaciers of Alaska to learning from the Moko Jumbie of the Virgin Islands, viewers will witness the importance of spending time with family and friends as our featured families experience amazing adventures together, often learning more about each other and their own family history along the way. Teens will also learn the importance of resiliency during challenging times as many featured families share their stories of overcoming adversity, finding ways to bond and heal while sharing these once in a lifetime experiences. In order for parents, children and listing services to clearly identify the programs as ones that fulfill the FCC programming requirements that meet children's educational television needs, each episode is closed-captioned and contains an E/I icon for the duration of the program with the recommended parental rating icon-typically, if not always, TV-G.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big will satisfy the FCC Children's programming requirement and can be classified as either core or non-core programming. Think Big serves the educational and informational needs of children 13-16 years of age with its program content, including the importance of having a working knowledge of math, science and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents an "invent off" challenge, where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills. To facilitate your FCC filings, episode synopses are available on line at our website, www.telcoproductions.com . Also available on-line are testimonials from our educational advisory review board, consisting of educators and other professionals who have reviewed the series.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This is a reality science series that is produced for children in the 13-16 age group and is designed to educate, inform and entertain those viewers. This program fulfills its purpose by providing a high level of educational value. The structure of each show consists of four (4) different segments/stories which make for a varied, fast paced program. Through the use of dramatic, stunning footage combined with an engaging and entraining narrative, the show creates a general tone that is particularly effective in connecting to the target audience. The level of detail in each show is also appropriate and the segments move quickly from one topic to the next. The host, Mariette Hartley, who is an animal rights activist and Emmy award winning actress, creates a bond with the viewer through her pleasing delivery. Coupled with a very conversational style is the MTV shooting style. The program open is visually engaging, featuring scenes of animals in their habitats in the form of a teaser for the audience.

Program Title	Think Big (Channel 13.4)Changed Channels
Origination	Syndicated
Days/Times Program Regularly Scheduled	Monday @ 3:00pm
Total times aired at regularly scheduled time	13

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big meets the educational and informational needs of children 13-16 years of age with its program content, especially stressing the importance of science, mathematics and physics. The series also allows the participants to demonstrate real-world applications for math, science and engineering, in a manner that is both rewarding and enjoyable. In each episode, the focus is on an "invent off" challenge, where teams complete a project to design a machine to perform a task under a time constraint. This allows the kids to express their creativity, critical thinking and mechanical abilities. For example, in episode No. 114, teams compete to design a bicycle with enhanced safety features. Each team is given the same materials to work with and apply their own unique process and problem-solving abilities. Combining their talents, each is able to complete the challenge; the winning team is decided based on objective results. Programs such as Think Big are a valuable way to promote the sciences of today's youth.
