Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	XPLORATION AWESOME PLANET - Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

XPLORATION OUTER SPACE - Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Career Day is a series which exposes kids to fascinating, important, and cool careers, intended to open their minds to exciting worlds they may not normally see. This series is dedicated to inspiring the dreams in all of us while instilling the importance of a good education. Host Jonathan Levit, gets hands on with each career and learns from the professionals who do them. In each upbeat and energetic episode, we will give a tour of the typical work environment, learn vocabulary words and definitions, get on the job training and learn what education is needed to work in a chosen career. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Describe the educational and informational objective of the program and how it meets the

Bill Nyes TV persona is a tall and slender scientist wearing a blue lab coat and a bow-tie. He combines the serious science of everyday things with fast-paced action and humor. Each half-hour show begins with a cold open, where Nye was introducing the episode's topic, which leads into an opening credit sequence, as Nye is seen floating through a montage of science images. Nye Laboratories is filled with scientific visuals including many "of science" contraptions announced dramatically, relevant to the topic of the episode. Parodies of movies and television shows configure the facts of the episode's topic. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and

otherwise meets the definition of Core Programming as specified in the Commission's rules.
