Digital Core Program (1 of 19)	Response
Program Title	LUCKY DOG (D1 CBS)
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 10:00am - 10:30am
Total times aired at regularly scheduled time	12
Total times aired	12
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal trainer Brandon McMillan operates a training facility known as the Lucky Dog Ranch, where his mission is to rescue hard-to-love and untrained dogs and find them homes. The show focuses on exercising responsibility and on developing a sense of appreciation for life and animals. Life lessons are an integral part of the overarching theme of rescuing these animals from death and providing a second chance for life. Following McMillan's investigations into how to retrain these animals to make them welcome members in the homes of families is both educational and inspirational - encouraging this demographic to become sensitive to our own and others' behavior and teaching how we as individuals can make a difference. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.
Does the Licensee identify the program by displaying throughout the program the symbol E /I?	Yes

Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Henry Ford's INNOVATION NATION, hosted by Mo Rocca, features the celebration of the inventor's spirit - from historic scientific pioneers throughout past centuries to the forward-looking visionaries of today. Each episode tells the dramatic stories behind the world's greatest inventions, and the perseverance, passion and price required to bring them to life. The program includes segments focusing on 'what if it never happened' and 'the innovation by accident,' and has a strong focus on 'junior geniuses' who are changing the face of technology. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. "On The Spot" is an educational and informative half-hour, E/I program that takes viewers on a lightning fast game of entertaining trivia. Each episode delivers endless amounts of meaningful information as the show tackles some of the most mind-blowing questions. Can a cow have an accent? Who got the world's longest standing ovation? As a kid, did Napoleon hate France? Questions are linked with eye-catching visuals, giving viewers a chance to guess the right answers. The goal of the series is to provide young viewers with an information-based program that broadens their knowledge of a wide range of educational topics.
