**Digital Core  
Programming**

| Question  | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream  | 3.0      |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream  | 504.0    |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:  | 13.92    |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?  | Yes      |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes      |

| Program Title  | LUCKY DOG (D1)   |
| Origination  | Network  |
| Days/Times Program Regularly Scheduled   | Saturdays 9 am   |
| Total times aired at regularly scheduled time  | 13   |
| Total times aired  | 13   |
| Number of Preemptions  | 0  |
| Number of Preemptions for other than Breaking News   | 0  |
| Number of Preemptions Rescheduled  | 0  |
| Length of Program  | 30 mins  |
| Age of Target Child Audience   | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>Animal trainer Brandon McMillan operates a training facility known as the Lucky Dog Ranch, where his mission is to rescue hard-to-love and untrained dogs and find them homes. The show focuses on exercising responsibility and on developing a sense of appreciation for life and animals. Life lessons are an integral part of the overarching theme of rescuing these animals from death and providing a second chance for life. Following McMillan's investigations into how to retrain these animals to make them welcome members in the homes of families is both educational and inspirational - encouraging this demographic to become sensitive to our own and others behavior and teaching how we as individuals can make a difference. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the main digital station.</p> |

| Program Title  | DR. CHRIS PET VET (D1)  |
| Origination  | Network   |
| Days/Times Program Regularly Scheduled   | Saturdays 9:30 am   |
| Total times aired at regularly scheduled time  | 13  |
| Total times aired  | 13  |
| Number of Preemptions  | 0   |
| Number of Preemptions for other than Breaking News   | 0   |
| Number of Preemptions Rescheduled  | 0   |
| Length of Program  | 30 mins   |
| Age of Target Child Audience   | 13 years to 16 years  |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the main digital station. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>PET VET DREAM TEAM is a live action, half-hour television program designed to meet the educational and informational needs of children aged 13 to 16. PET VET DREAM TEAM follows talented veterinarians Dr. Lisa Chimes and Dr. Andrew Marchevsky of the Small Animal Specialist Hospital (SASH), where they deal with compelling cases of infirm and injured pets. Viewers also see exotic animal expert Tim Faulkner in action at the Australian Reptile Park, where he cares for animals big and small, from crocodiles to koalas. Together, these three authorities race to cure their furry and feathered charges educating viewers on a range of medical procedures and zoological practices along the way. As viewers catch a behind the scenes look at the veterinary profession, they also learn responsibility and empathy for animals of all kinds through the passionate work of the PET VET DREAM TEAM.</p> |                 |

| Age of Target Child Audience   | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants; architects who design "living buildings" and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery. Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the .2 multicast channel only. |

| Age of Target Child Audience   | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | On Xploration Outer Space each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the .2 multicast channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the .2 multicast channel only. |

| Age of Target Child Audience   | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | XPLORATION Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother/sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. On XPLORATION Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works and encourage them to discover answers to their most curious questions. XPLORATION Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the .2 multicast channel only. |
| Does the Licensee identify the program by displaying throughout the program the symbol E/I?                              | Yes  |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Look Kool is a program designed for children 6 to 9. On every episode, the male host, Hamza, interacts with an animated robot cat, a historical guest who is played by Hamza in costume, children, and other animated creatures. The basic premise of the show is the idea that math is everywhere and each episode includes real children who help Hamza solve mathematical or scientific curiosities. Look Kool works hard to highlight for learners the link between the lesson and real life in order to activate and keep the children's interest. Live action children in real world settings put the lesson of the episode into action by seeking its value within everyday life. Look Kool is a highly educational program and speaks to the curious minds and active imaginations of elementary age kids and encourages the transfer of knowledge out into one's everyday life. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | What will the world look like in 2050? Where will advancements in science, technology, engineering, and mathematics lead us? Xploration Earth 2050 strives to answer these questions and more with scientists, inventors, doctors, science fiction writers, and creative thinkers. This half hour weekly series, produced primarily for the 13-16 year old target audience will appeal to the whole family. Viewers will be taken on an educational adventure as the show tackles future challenges in everything from transportation to health care to the environment. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program aired on the .2 multicast channel only. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Animal trainer Brandon McMillan operates a training facility known as the Lucky Dog Ranch, where his mission is to rescue hard-to-love and untrained dogs and find them homes. The show focuses on exercising responsibility and on developing a sense of appreciation for life and animals. Life lessons are an integral part of the overarching theme of rescuing these animals from death and providing a second chance for life. Following McMillan's investigations into how to retrain these animals to make them welcome members in the homes of families is both educational and inspirational - encouraging this demographic to become sensitive to our own and others behavior and teaching how we as individuals can make a difference. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program will air on the main digital station. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants; architects who design "living buildings" and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery. Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program will air on the .2 multicast channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | On Xploration Outer Space each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program will air on the .2 multicast channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. | Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | XPLORATION Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother/sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. On XPLORATION Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works and encourage them to discover answers to their most curious questions. XPLORATION Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. | Length of Program  | 30 mins   |
| Age of Target Child Audience from  | 13 years to 16 years  |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half hour weekly series, Ocean Mysteries, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. It shows how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the "family dynamics" of the mingling species, viewers will get to know and care about these heroes, and all of the fascinating life teeming in our oceans. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |
