Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This half hour program is hosted by Emily Callendrelli, a host that demonstrates that young women can be cool, smart, and still choose careers in science. This message is critical to addressing the dearth of women who choose to go into STEM careers. The series addresses all areas of space exploration: planets, stars, moons, and how science, engineering and technology are allowing us to learn more every day. The presentation takes very technical and complex information and presents it in a way that is accessible to viewers, but manages to remain very high level in it's concepts. The goal is to show off the coolest aspects of the space industry. To accomplish this, Emily and the Xploration Outer Space crew travel to various NASA centers, private space companies, and even universities. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.
