Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series approaches animal behavior from a uniquely scientific perspective. While most animal shows look only at the outward behaviors of animals, XPLORATION ANIMAL SCIENCE goes one step further, exploring why animals are able to excel in their environments and how they have adapted for optimal survival. Building on viewer's natural curiosity about the world around them, the series examines compelling questions, such as how animals use their unique characteristics to escape danger and how they manage to secure the food necessary for survival. As the series goes on location, viewers are exposed to regions all over the world, each with their own remarkable wildlife populations. Animation, graphic and scientific analysis provide viewers with a deeper understanding of a variety of amazing creatures while stunning footage reinforces the learning experience.
