Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	SWAP TV is a weekly half-hour television series about two teenagers from different backgrounds "swapping" lives for a weekend. The series meets the educational and informational objectives of the FCC's Children's Programming requirements for children ages 13-16. The programs explore the opposite lives of the participating youngsters as they learn about different cultures and family settings. Young viewers are exposed to the special interests of the "swapping" youngsters and what adjustments they make to a different life situation. The program teaches tolerance of various races, creeds and backgrounds while exposing an appreciation to someone else's way of life. Each episode is informative, entertaining and promotes good social values and respect.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dragonfly TV showcases our most eager young scientists in a way that encourages all kids to discover the wonders of science. It's a new approach in science television for kids, because it features ordinary children and their own science investigations. The programs highlight children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Whether shooting over moguls on free-ride skis, getting up close and personal with alligators, or cooking up experiments in their own kitchens, the Dragonfly TV kids empower viewers to explore, question, and learn. In each episode, children tell how they pursued their own investigations, communicating the infectious excitement that comes with making their own discoveries.
