Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or food experience. Sean is accompanied by Noodle, a puppet character and Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter-ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art, and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.
