Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"ANIMAL SCIENCE" is a new half-hour weekly E/I animal series with a uniquely scientific approach. This series is specifically produced for children 16 and under (specific target audience is 13-16). While most animal shows look at the behavior of animals, we go one step further to look at the how and why an animal is able to excel in its environment. Shot in high-definition, "ANIMAL SCIENCE" uses animation, graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. Our enthusiastic host's modern vocal style will be engaging to the target audience. This program will attract all age demographics.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"WHADDYADO" is a half-hour weekly educational series designed to educate, inform, inspire and entertain children 16 & under (specific target audience is 13-16) about the world around them. Each episode is an educational life-lesson, based in reality, intended to prepare young people for potential situations that could easily crop up at any time, anywhere. Using a combination of actual dramatic footage, re-enactments, and demonstrations,"WHADDYADO" provides a compelling look at perilous situations that have occurred in real life. Then, using interviews with the participants, and instructions from experts, we learn what the proper reaction should be when faced with similar life-threatening circumstances. Also, in an effort to help young people make the right decision at the right time many episodes will feature a Moral Dilemma segment.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Think Big" concentrates on the importance of having a working knowledge of math, science and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that that the physical sciences can be useful, challenging and fun. Each episode presents an "invent-off" challenge, where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills.
