Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	THE BUSY WORLD OF RICHARD SCARRY This animated series is based on the books by Richard Scarry. The fictional city Busytown is an enchanting place that's abuzz with energy and life. Episodes are divided into multiple segments with different themes. The first and last segments involve the children in Busytown exploring their community. At the end of each segment the children have learned a little about their community and the world they live in. The middle segment shows children life in other cities featuring daily activities of adult characters in places such as Paris or Rome. Each episode includes two song segments in which the first, "Imagine That", teaches various things like general science to how banks work. The second song segment that teaches safety is called "Play it Safe". The aim of the series is to stimulate imagination and foster vicarious play, teach pro-social behavior (such as generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies), help children move beyond family attachments to the world of friendships and community, help children develop skills on which academic learning depends such as attention, language, memory, active processing of a story and an interest in reading.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	SAFARI TRACKS This program is an exciting and entertaining series which takes viewers on location to explore the magnificent and immense world of Africa's animals. Ushaka, a young South African host, takes the viewer from the brushlands of the Savanna to the great Okavango, and from the greatest game reserves to the most remote beaches of Madagascar and more. The viewer will see everything from rare African birds to "creepy crawlers" to animal babies interacting with their mothers and siblings. The viewer will learn about life science as well as biological facts, which will educate the viewer about the natural activities of a species as well as its environment and the need for wildlife conservation and how to better support the protection of endangered species
