| Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3. | KMPH-CD continued to the serve the educational, informational, and social needs of children throughout the 2nd Quarter 2014 through extensive broadcast and outreach activities. The station has continued to air PSA's for local and national organizations serving the interests of children and families, including those from Earth Share teaching environmental responsibility, and from the Ad Council on the dangers of childhood asthma. We also have presented stories in our newscasts highlighting children's issues, such as the impact of caffeine on pre-pubescent boys and girls, the need for protection from a new and dangerous mosquito born virus, and increased understanding of environment and the impact of bad air quality on the area's children. The station continues to provide tours of our facility to local schools to show where and how the news is produced, and to answer questions on what skills are needed to work in the industry, including education. The station's on air talent maintain an extensive schedule with community groups and schools. Dozens of visits were made to schools to read to students, helping them develop a love of reading and continuing education, teaching them about weather and the environment, sports and health, and to answer questions about television, world events, and issues that impact children. Our news personalities are all active in the community, including one who serves on the board of the Northern California Chapter of the National Association of Television Arts and Sciences, serving in the Mentoring and Scholarship programs. Our station is active on social media, where we frequently field questions from children, and take the opportunity to encourage them to continue their education, act in a socially responsible manner, and become good stewards of the planet on which they live. |
