Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Pets.TV is a television program that provides educational and informational segments exposing the target audience of young viewers to everything Pets. The upbeat contemporary presentation relates the animals to the viewer's lives and interests. Pets from everyday to the unique are showcased with educational information that shares how they evolved to become pets and their geographic origins. Professionals answer questions from pet lovers and share personal experiences. In these segments the excitement and love of working with pets is expressed. The motivational and inspirational message of each guest is entertaining and empowers audiences of all ages to pursue more information and education about everything pets. Each segment of Pets.TV delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, commitment, and perseverance children can apply to their lives.. Through the eyes of two young apprentice reporters named Sarah and James, viewers of Liberty's Kids will go on adventures in search of the real stories of the American Revolution. Sarah is a proper British girl right off the ship from England and James, a fifteen-year-old apprentice, sees things from a cocky colonist's perspective. They meet famous historical figures such as George Washington, plus other figures that should be, like Phillis Wheatley - a published poet while still enslaved. Although the setting is Colonial America, Liberty's Kids' characters find themselves in the middle of a revolution that confronts issues that still fill the newspapers today - gun control, downsizing government, lower taxes, freedom of the press, and race relations. Sarah and James are followed around by eight-year-old Henri, a spirited immigrant from France. Moses, a former slave who freed himself, watches over them for his employer, the remarkable Benjamin Franklin, with whom we travel to Europe as he fights for recognition and assistance for the young nation. The entire show is produced using high quality animation and creates an exciting world that today's kids can jump into and discover the real stories of the incredible time that gave birth to the United States of America. Liberty's Kids offers caretakers, from parents to teachers, an extraordinary resource through which they can share with young people the inspiring stories, characters, and values at the heart of America's great experiment in democracy</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Inspired by the beloved works of best-selling children's author, Richard Scarry, Busytown Mysteries brings the popular adventures of Busytown to preschoolers with an educational, problem-solving twist. Children can follow classic characters such as Huckle, Sally, and Lowly as they scour Busytown on fun-filled adventures looking for answers to life's puzzles. Each episode focuses on fostering viewers' problem solving abilities, as the characters use their skills of observation to collect facts, draw inferences from those facts, and ultimately reach conclusions. Each episode also develops vocabulary through words and concepts that are part of the episode's overall theme. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>"Get vertical!" That is the mantra of our host, D.J. Rick, as he encourages young viewers to get up and dance along with the contestants on Dance Revolution. The program combines the teaching of new dance steps (to both on-stage contestants and home viewers) with intense competition as pairs of young dancers - much like themselves - vie to become Dance Revolution champions. We use the proven appeal of a talent competition both to engage viewers and keep them coming back to see which of the dance teams will be victorious over the course of a 13-week period. We further exploit the competitive structure as a device that requires the learning of and encourages the practice of new dance steps each week. In short, we use the attraction of one of today's most popular pop-culture art forms (Hip-hop dance) to increase young viewers' physical activity and help improve their health. In each episode, an attractive dance instructor demonstrates a series of new and demanding Hip-hop dance steps, challenging each pair of contestants to incorporate those moves into their own dance routine. During the portrayal of the demonstration of the new steps, the competitors practicing of those steps, and the dance competition itself, viewers are encouraged to participate in the action by learning the steps and getting up and dancing along with the contestants. Frequent comments by both the program host and by the dance instructor are designed to engage viewers in the activity. In addition, by incorporating techniques such as split screens, pop-up screens, and rolling text messages, dance is associated with exercise and good health throughout the program, and viewers are continually encouraged to get up and dance. (It should be noted that Hip-hop demands a great deal of energy, endurance, and skill to master ... an ideal device to engage young viewers in relatively vigorous physical activity). Both on-screen talent and pop-up screens promote participation in dance by linking it to various other sports (i.e., via improved balance, coordination, timing), to good health, and to increased energy and attractiveness. Episodes also include occasional references to historical and cultural facts related to dance. Indeed, anything that makes dance attractive, thus encourages young viewers to get up and move, is considered fair game.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Cake, a dynamic young adolescent who has never seen a glue-gun she didn't like, lives by the motto that "You can't buy individuality, but you can make it." She revels in recycling cast-offs, used up clothing and accessories, and just plain "stuff" into highly creative and individualized expressions of fashion and personality. Cake is joined by two peers, Benjamin and Miracle, as they discuss their respective lives, problems, hopes and aspirations while producing a weekly "do-it-yourself" local access TV program for kids. Each week, personal events in our characters live provide Cake and her friends with inspiration for a new creative project. These range from how to transform an old purse into something new and unique, through the manufacture of personalized soap, individualized garden stepping-stones (the perfect gift for family members who garden!), or one-of-a-kind carrying cases, to the reinvention of second-hand clothes into high fashion originals. Each episode begins as Cake and her friends gather to discuss their personal lives: events at school, personal aspirations, problems, expectations, friendships, worries...in short, the array of issues that most young adolescents confront on an almost daily basis. The four characters are highly supportive of each other, and they clearly and concretely display positive interpersonal interactions. Amy, as the youngest, frequently asks the kinds of questions that enable Cake, Miracle, and/or Benjamin to engage in some pretty straightforward prosocial teaching - helping her with everything from the meaning of a current verbal expression, to how to deal with the fact that her mother won't let her get her ears pierced. Cake and her crew consistently model mutual respect and admiration, supportiveness, and the ability to engage in the kinds of cooperative give-and-take necessary for the successful functioning of almost any group. Much of Cake's and her friends' cooperative effort in each episode is directed toward conceptualizing and producing their weekly TV show, the aim of which is to teach pre-adolescents how to express their own originality and creativity through variety of different handicraft projects. To this end, each week the cast assembles the necessary components for each craft, then produces a step-by-step demonstration of how the elements can be assembled. The characters in Cake and the lessons they teach encourage individuality, creativity, and just plain having fun, as they provide young viewers with a platform for self expression and self-confidence as they promote new ways to express creativity and model highly successful, positive social relationships.</p>
