Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Eco Company explores all aspects of being "green" and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Passport to Explore" takes an atypical approach, since the focus is specifically aimed at the 13-16 year-old set. Teens - the "Young Explorers" - travel the globe in search of exciting and adventure-filled places, and they learn a little something in the process. Not only does the series present geographical information about the areas visited, but it aims to enrich children's lives by making them aware of the differences that exist. Each episode provides information related to the specific area visited and gives an educational approach to its history, using the technique of near-peer mentors, i.e., children teaching other children.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Cubix: Robots for Everyone takes place in the year 2040 in Bubble Town, where robots outnumber humans. The series centers around a 13-year old boy named Connor, his robot Cubix, and the members of a special club known as Botties. Each member of the Botties has their own robot with a unique characteristic. The robots are friendly and efficient, and they function in imaginative ways to help make Bubble Town a great place to live. But it's a good vs. evil world, and Connor and the Botties learn lessons of right and wrong, loyalty, teamwork, courage and problem solving during their adventures to thwart Dr. K's evil schemes to take control of Bubble Town's robots. Each member of the Botties faces the same real-life conflicts that children face such as feeling sad and alone, feeling insecure and vulnerable, and having a fear of failure. Throughout the series they learn the importance of perseverance and the importance of embracing their differences to overcome obstacles.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Gina D's Kids Club is a family-friendly educational television program for pre-schoolers. Specifically themed shows address the learning needs and potential of young children as they entertain, amuse and delight viewers of all ages through a combination of live action and dynamic 3-D animation. The show is hosted by a positive adult female role model who connects with her young viewers in a gentle, caring way in the same familiarity that children associate with their mothers. The major premise of Gina D's Kids Club is establishing and reinforcing positive values and behaviors through original songs and character performances that children will choose to adopt and imitate. Scripts are designed to promote actions that support interpersonal skills such as helping others, negotiation, cooperation, sharing and tolerance with an ending (Gina D's letter to grandma) that reinforces those educational objectives. Content is lively and fun, produced with state-of-the-art computer animation and original positive songs and characters.
