Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode the viewer is able to connect with these animals and learn how important they are to all life on the planet as well as how sea life connects to life on the rest of the globe. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program explores the marine ecosystem from tributaries, rivers and oceans to develop an understanding and let the viewer know that we are key in preserving the ocean environment. Aqua Kids teaches about the diversity and beauty of the marine environment and its potential destruction by pollution and carelessness of the human population; such as marine mammals dying from the ingestion of plastic and toxic waste in our waterways destroying the habitat and marine life. By showing the audience the problems they encounter, the Aqua Kids educate their peers on what can be done to solve environmental dilemmas. This program will air on the secondary digital stream, channel 53.2.
