Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>1. Eco Company provides CORE programming in the area of the environment and preservation of the earths resources. Eco Company explores all aspects of being green and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives. 2. Eco Company uses the technique of peer reporting. The diverse and dynamic cast of teens who make up Eco Company combine their natural curiosity with their enthusiasm to report the informational stories to teens and their families. Each episode employs Eco Company members or hosts who conduct interviews of peers and adults, and experience first hand the demonstration and explanation of the topic. 3. Our Eco Company website can be easily accessed by parents and provides a clear description of the program and types of topics covered. It also provides a listing of the weekly episodes and topics aired on broadcast stations through the USA. Advanced notice of future episodes will also be available to parents and consumers by the website. 4. Eco Company has been reviewed by educators in a variety of disciplines who have endorsed the as an educational resource for teens and satisfies the FCCs requirements for core Educational and Informational programming. Targets teens 13-16.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wimzies House is targeted at 3 to 5 year old children and designed to contribute to the developmental and educational needs of children in this age group. Three to five year old children are accomplishing phenomenal growth and change in their physical, cognitive (language, perception, and intellectual), and social-emotional development. Growth and change in the physical domain impacts the range of opportunities they have to experience new environments and opportunities for social interaction. New environments and social interactions impact their socio-emotional development. And, their vastly increased language ability and growing cognitive capacity affects both their ability to regulate and express emotions and their ability to mentally represent their experiences. The integrated nature of their rapid development during this time period makes this a time when the childrens imagination becomes vivid, complicated and exciting. Three to five year olds use their imagination to assimilate new learnings, develop empathy and a sense of humor and begin to develop a conscience. Their imaginations and their fantasy play help children understand the complexity of the communities they are venturing into as they expand their range beyond home to schools, neighborhoods and social groups.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	FCC E/I compliant content (ages 13-16):Animal Atlas is an educational and informative half-hour, E/I program that travels the globe to meet every kind of animal imaginable, from the familiar to the astounding. Each episode takes young viewers on a journey through the animal kingdom to learn about the lives, history, and varying adaptations that allow animals to survive and thrive in the wild. The series strives to present a wide variety of information in a number of interactive and poignant sequences to make knowledge of the animal kingdom both simpler and easier to remember. It's through this engaging information and rich visual content that allows viewers to better understand and appreciate the animal world around them. Relying on the rich visuals of the world of animals, the series' writing ties together images and actions in nature with educational and informational themes. It is impossible to watch an episode without learning some fascinating fact about the animal kingdom. As digital photography has progressed, the images on the series have grown more colorful and detailed and each episode has some eye-popping image that a zoologist twenty years ago would have killed for. For the targeted viewers 13-16 years-old, it builds on natural curiosity and adolescent-friendly topics like weapons, groups, and inherited behaviors. Those behaviors neatly model the adolescent viewers own(human) behaviors.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On The Spot is a series tapping knowledge across a series of subject areas: geography, art,technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are giving by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people' is essential. It means that anyone can own information. The fact that young people will see this on television in a non academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person. Target age group teens 13-16.

Program Title	ECO COMPANY (KTVK 3.1)
Origination	Syndicated
Days/Times Program Regularly Scheduled	SUN 1:30PM 01/05/14 - 03/30/14
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	1. Eco Company provides CORE programming in the area of the environment and preservation of the earths resources. Eco Company explores all aspects of being green and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives. 2. Eco Company uses the technique of peer reporting. The diverse and dynamic cast of teens who make up Eco Company combine their natural curiosity with their enthusiasm to report the informational stories to teens and their families. Each episode employs Eco Company members or hosts who conduct interviews of peers and adults, and experience first hand the demonstration and explanation of the topic. 3. Our Eco Company website can be easily accessed by parents and provides a clear description of the program and types of topics covered. It also provides a listing of the weekly episodes and topics aired on broadcast stations through the USA. Advanced notice of future episodes will also be available to parents and consumers by the website. 4. Eco Company has been reviewed by educators in a variety of disciplines who have endorsed the as an educational resource for teens and satisfies the FCCs requirements for core Educational and Informational programming. Targets teens 13-16.

Program Title	ANIMAL ATLAS (KTVK 3.2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	SUN 8:00AM 01/05/14 - 03/30/14
Total times aired at regularly scheduled time	13

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	FCC E/I compliant content (ages 13-16):Animal Atlas is an educational and informative half-hour, E/I program that travels the globe to meet every kind of animal imaginable, from the familiar to the astounding. Each episode takes young viewers on a journey through the animal kingdom to learn about the lives, history, and varying adaptations that allow animals to survive and thrive in the wild. The series strives to present a wide variety of information in a number of interactive and poignant sequences to make knowledge of the animal kingdom both simpler and easier to remember. It's through this engaging information and rich visual content that allows viewers to better understand and appreciate the animal world around them. Relying on the rich visuals of the world of animals, the series' writing ties together images and actions in nature with educational and informational themes. It is impossible to watch an episode without learning some fascinating fact about the animal kingdom. As digital photography has progressed, the images on the series have grown more colorful and detailed and each episode has some eye-popping image that a zoologist twenty years ago would have killed for. For the targeted viewers 13-16 years-old, it builds on natural curiosity and adolescent-friendly topics like weapons, groups, and inherited behaviors. Those behaviors neatly model the adolescent viewers own(human) behaviors.

Origination	Syndicated
Days/Times Program Regularly Scheduled	SUN 10:00am 01/05/14 - 03/30/14
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On The Spot is a series tapping knowledge across a series of subject areas: geography, art,technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are giving by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people' is essential. It means that anyone can own information. The fact that young people will see this on television in a non academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person. Target age group teens 13-16.
