Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	0.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	0.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Digital Core Programs(6)

Digital Core Program (1 of 6)	Response
Program Title	Cubix: Robots for Everyone
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 7:00am and 7:30am
Total times aired at regularly scheduled time	7
Total times aired	
Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	
Length of Program	30 mins
Age of Target Child Audience	3 years to 7 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In order to best develop the skills and values that will produce "socially conscious" and productive future adults, fostering social and emotional competencies in our children is crucial. Social and emotional skills -- such as confidence, courage, loyalty, teamwork and problem solving -- provide an important knowledge base upon which appropriate behaviors can be developed. Imaginary environments provide children with a safe mechanism to witness these "pro-social" behaviors. Cubix provides just such a framework. The series tackles life scenarios that commonly affect children today. The educational objectives of Cubix include the reinforcement of age appropriate interpersonal skills, the development of self-confidence, courage and personal responsibility. Cubix exposes children to these lessons within an entertaining, non-threatening imaginary environment. The Botties and their robots tackle personal and community adversities in creative story lines. Within this framework, children can see age-appropriate problem-solving strategies and learn to model the appropriate behavior. Through the Botties' experiences, viewers learn to overcome self-esteem and social competency issues, demonstrating to children that self-confidence, courage and resilience are necessary tools for problem solving and establishing good interpersonal relationships. Moreover, the characters inspire and promote altruistic behaviors, such as community participation, support, resilience, tolerance and leadership skills.

Digital Core Program (2 of 6)	Response
Program Title	Magi Nation
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays 7:00am and 7:30am
Total times aired at regularly scheduled time	6
Total times aired	
Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	
Length of Program	30 mins
Age of Target Child Audience	7 years to 12 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Magi Nation addresses vital learning goals as the characters travel through successful and sometimes less than successful attempts to analyze difficult situations, set appropriate goals, and creatively seek solutions to the dire dilemmas in which they find themselves. The characters are engaged in intriguing codes, riddles, and other puzzles which engages the viewer and gives the viewer the opportunity to not only observe others, but to make use of their own unique knowledge base to solve problems and address conundrums on their own.
