Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is hosted by teens and used peer reporting to profile individuals and organizations committed to environmental issues, including reports on the latest recycling and nature conservation efforts, advances in renewable energies and carbon footprint-reducing technology. It also offers advice on how to be more eco-wise, while performing daily activities. The program also includes "eco bytes" (bits of trivia related to environmental issues) and video footage uploaded by teen viewers to the program's website. By using this information from a youthful point of view, it enthusiastically encourages young adults to become more proactive about environmentalism and stresses the positive impact that young people's efforts, no matter how small they may seem, can have on the larger world around them.
