Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show is a five-year-old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Pajanimals are a group of four preschool aged puppets who live together in house with their off-screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time, always turns into a discussion that results in a dream-like adventure to solve a problem, such as overcoming shyness, making a new friend, or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure, and the children return home confident, getting ample rest for today and facing their issues tomorrow.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The REAL WINNING EDGE series is developed to be an educational/ informational (E/I) program for the 13-16 year age group. It is designed to help youth make winning choices in their lives in order to grow to be productive citizens. This series is based on role models who are making pro-social life choices. Emphasis on being honest, loyal, hard working toward productive goals, and treating others as they would like to be treated, are values emphasized by the positive role models in The Real Winning Edge. Education research indicates that, from preadolescence through the teenage years, youth are most influenced by their peers. Their role model preferences switch from parents to the sports and entertainment icons during these years for most. If the peers and the icons promote antisocial standards and nonconformity to guiding principles honored in our society, youth soon adopt behaviors that not only hurt others but hurt themselves. The Real Winning Edge will go a long way in helping youth to develop character, being the best they can be by seeing their peers and the celebrities whom they admire, who themselves have the character to make winning choices.

Emphasis on being honest, loyal, hard working toward productive goals, and treating others as they would like to be treated, are values emphasized by the positive role models in The Real Winning Edge. Education research indicates that, from preadolescence through the teenage years, youth are most influenced by their peers. Their role model preferences switch from parents to the sports and entertainment icons during these years for most. If the peers and the icons promote antisocial standards and nonconformity to guiding principles honored in our society, youth soon adopt behaviors that not only hurt others but hurt themselves. The Real Winning Edge will go a long way in helping youth to develop character, being the best they can be by seeing their peers and the celebrities whom they admire, who themselves have the character to make winning choices.
