Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	7.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Teenage hosts Araya and Christina investigate real-life reports of mysteries such as ghosts, monsters, vampires and UFOs. They use scientific rigour to try to find plausible explanations for the sightings and eye-witness accounts that trigger their investigations. In another section of the show, Doubting Dave, a scientist played by David Acer, attempts to explain mysterious personal experiences that have been emailed in by viewers, in a feature called "V-Files", as well as a way to create your own versions of the mysteries in the show in his "Mystery Lab" segment. The show aims to teach critical observation, analytical thinking and scientific testing to encourage children to question the world around them. Through travel and investigation of ancient mysteries; focusing on history, culture, geography and international customs. Target teens 13 to 16

Program Title	ON THE SPOT
Origination	Syndicated
Days/Times Program Regularly Scheduled	SAT 1230PM
Total times aired at regularly scheduled time	13
Total times aired	
Number of Preemptions	0

Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT adopts a modified question and answer format familiar to broadcast network viewers, including the targeted age. The questions fall under curriculum core areas of knowledge in social studies, science, the arts, civics, and mathematics. The format allows for a wide range of topics and allows topics to be blended, which is a serious asset. The integration of core curriculum areas is a traditional goal in education and while ON THE SPOT doesn't support the deeper integration that would be done in a classroom, the energetic blend is a great example of taking curriculum out of their separate boxes and making them a uniform part of why knowledge can be important.

Program Title	ON THE SPOT
Origination	Syndicated
Days/Times Program Regularly Scheduled	SAT 1230PM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT adopts a modified question and answer format familiar to broadcast network viewers, including the targeted age. The questions fall under curriculum core areas of knowledge in social studies, science, the arts, civics, and mathematics. The format allows for a wide range of topics and allows topics to be blended, which is a serious asset. The integration of core curriculum areas is a traditional goal in education and while ON THE SPOT doesn't support the deeper integration that would be done in a classroom, the energetic blend is a great example of taking curriculum out of their separate boxes and making them a uniform part of why knowledge can be important.
