Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal trainer Brandon McMillan operates a training facility known as the Lucky Dog Ranch, where his mission is to rescue hard-to-love and untrained dogs and find them homes. The show focuses on exercising responsibility and on developing a sense of appreciation for life and animals. Life lessons are an integral part of the overarching theme of rescuing these animals from death and providing a second chance for life. Following McMillan's investigations into how to retrain these animals to make them welcome members in the homes of families is both educational and inspirational - encouraging this demographic to become sensitive to our own and others' behavior and teaching how we as individuals can make a difference. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week, host Evette Rios, recently a field correspondent and roving reporter for "The Chew," helps American families modify and update a high-calorie family recipe. First, two chefs face off in a head-to-head competition to give the recipes a nutritious low-calorie twist. After making each rehabbed recipe in its own kitchen, the family chooses its new favorite. This recipe makeover challenge teaches viewers about the nutritional value of different foods, promotes the use of healthy, wholesome ingredients, and demonstrates that healthy food choices can have positive effects on viewers' quality of life. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	<p>WDEF aired PSAs which were of benefit to the youth during the 2nd quarter of 2014. A complete listing of the PSAs which aired on 12.1 and 12.2 during this quarter can be found in our public file. The station sponsored several programs which engaged children and one such program is the Golden Apple Program. WDEF News Anchor Joe Legge through on air announcements, solicited students with the permission of their parents to nominate a teacher who has had a positive impact on their life. A teacher was then chosen by a panel of judges based on the students comments and then highlighted along with the nominating student on Tuesdays Newscast at 6. An example of a Golden Apple winner was Diane Hitchcock from Snow Hill Elementary who was nominated because of her approach to teaching. She uses puppets to make the children feel comfortable and has creative ways to help her students learn. Diane went on to become our 2014 Golden Apple Teacher of the Year and was honored at the Golden Apple Banquet held for all of the nominees. Another initiative sponsored by the station was a news segment called What's Right with Our Schools. WDEF News Anchor John Mercer featured a segment each Monday during the 6pm newscast highlighting educators, students, individuals or community groups which worked with the students and schools in an extraordinary manner and who went above and beyond the norm in helping to educate children through life lessons. An example of this was students from Chattanooga School for Arts and Sciences who decided to try to help prevent injuries in children. They partnered with Erlanger Children's Hospital and the teen artists painted a mural across the street from the Children's Hospital Emergency Room with themes of injury prevention and safety. The teens feel as if the younger children look up to them for guidance and they wanted to do something to inspire kids to be more careful. WDEF also sponsored our Weather in the Classroom initiative. Meteorologists visited classrooms to make a presentation to students on determining weather patterns and on being prepared for dangerous weather situations. We did weather presentations to children in the classrooms at several schools which included West Fannin Elementary, Dade County Middle School, Spring Creek Elementary and also the public library. Our Chief Meteorologist, Patrick Core has a program we call Kidcasters where local parents can go to our website and tell why their child would like to be a kidcaster. After a child is selected, they, along with their family members, get to come to the station and be present in the studio during the 6PM news broadcast. Afterwards, the student gets to do a taped weather report. They introduce themselves and tell what school they attend and then talk about the next days weather and rate it from an A to a C based on what kind of day they think it will be. They then get to shout out to family members or school mates. The segment is then played on our 11PM news that night and again the next morning on our morning news. Each child received a personalized Kidcaster certificate and a DVD of their on air kidcaster weather report. This quarter we had kidcasters from the following schools. Clifton Hills Elementary, Ooltewah Middle School, Wallace A Smith Elementary, Orchard Knob Elementary, City Park Elementary, Daisy Elementary and Rossville Middle School.</p>
