This series is a part of the 2-hour block of STEM based E/I programs titled XPLORATION STATION. Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. The host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location he visits. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. Viewers may visit gigantic glaciers and behold their beauty, but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom as they strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding interest in the field of STEM education.

This series is a part of the 2-hour block of STEM based E/I programs titled XPLORATION STATION. This new half-hour weekly series, produced for the 13-16 target audience, will attract viewers of all ages. Each week the host, Emily Calandrelli, will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch the host try to perform every day responsibilities while floating in zero gravity. Viewers may explore the challenges that come along with living on a different planet as the host lives like an astronaut in a Mars-like habitat. There will be episodes on space robotics, commercial space tourism, asteroids, and the search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content that is shown.
