| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Sea Rescue, features the rescue, rehabilitation and - in many instances - release back into the wild of ocean wildlife. Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, Sea Rescue will leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Teenage hosts Araya and Christina investigate real-life reports of mysteries such as spirits, legendary creatures, monsters, dinosaurs and UFOs. They use scientific rigour to try to find plausible explanations for the sightings and eye-witness accounts that trigger their investigations. In another section of the show, Doubting Dave, a scientist played by David Acer, attempts to explain mysterious personal experiences that have been emailed in by viewers, in a feature called "V-Files", as well as a way to create your own versions of the mysteries in the show in his "Mystery Lab" segment. It has garnered awards and accolades from around the world, including eight Gemini Award nominations, a 2006 Parents' Choice Award, and a 2007 Japan Prize (sponsored by the Japanese television network NHK) for the "Stonehenge" episode, awarded the Minister of Internal Affairs and Communications Prize in the Early Education category. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Sea Rescue, features the rescue, rehabilitation and - in many instances - release back into the wild of ocean wildlife. Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, Sea Rescue will leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet. |
