Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It's Academic showcases the brightest students from 81 area high schools - private, parochial, and public inner city and suburban. Using an exciting quiz format, these students compete to answer questions from all areas of the school curriculum: history, literature, geography, science and math. NBC4's Mac McGarry hosts the program. There are questions on music, arts and current events. Through It's Academic, the admiration and respect normally reserved for athletic heroes is extended to high school scholars and this helps create a pro-learning atmosphere in the schools, where academic excellence is encouraged. School systems in the Washington metropolitan area, recognizing that academic competition is a great motivating force, have established It's Academic clubs to extend the benefit of the competition to a far greater number of students than those who actually participate on the television program. It's Academic is targeted to those young people in middle and high school.
