**Digital Core
Programming**

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	4.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	6.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode the viewer is able to connect with these animals and learn how important they are to all life on the planet as well as how sea life connects to life on the rest of the globe. This program aired on the station's secondary digital stream channel 40.2.

Question	Response
Does the Licensee publicize the existence and location of the station's Children's Television Programming Reports (FCC 398) as required by 47 C.F.R. Section 73.3526(e)(11)(iii)?	Yes
Name of children's programming liaison	Vicki Jones
Address	800 Concourse Parkway, Suite 200
City	Birmingham
State	AL
Zip	35244
Telephone Number	(205)403-3344
Email Address	vrjones@sbgvtv.com
Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	WJSU-TV aka ABC 33/40 produced an educational DVD and website project that we have titled " The ABC's of Weather". This DVD was designed to enhance student's weather knowledge in a variety of ways: visiting the classroom, covering weather information with a slide show and some hands on experiments, and providing a place to go to learn more about Alabama's weather. This DVD answers common questions, not so common questions, and some interesting facts about Alabama's weather. This is a very useful resource for students and teachers alike. Each chapter of the DVD is meant to provide insight into how weather works, why the weather is so variable, severe weather safety, and a look inside our weather office. Our meteorologists visits hundreds of schools each year. We put a lot of information in front of students hoping to leave them with a lasting excitement about science and some great weather knowledge. This DVD and web project allows us to not only have face to face conversations about how wonderful science is, but we also now have something concrete and fun for the students to use in class and at home. It is our way of sharing as much information as possible in the information age. The ABC's of Weather DVD was approved by the state of Alabama to be added as part of all schools curriculum for school age students 9-12 years old. The DVD became part of the school curriculum in the 2008-2009 school year. AMSTI acted as the circulatory for this DVD to all schools in the state.

Program Title Jack Hanna's Wild Countdown

Origination Syndicated

Days/Times Saturdays 8:00AM (1/3/15-3/28/15)
Program Regularly Scheduled

Total times aired at regularly scheduled time 13

Length of Program 30 mins

Age of Target Child Audience from 13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. This program chooses a region, or special adaptations animals have made or a specific animal and uses a top ten countdown. From a safari in Botswana, to a dude ranch in Montana, to a retirement home for horses, Jack counts down 10 incredible experiences. He also explores wild and rare animals in Australia such as dingoes, devils and cassowaries. For animal adaptation Jack travels from the Arctic to the desert picking ten animals that have made special adaptation to survive in the harsh environments. This program informs the viewer about animals and their habitat which can lead the viewer to discussions regarding the environment and conservation. This program will air on the station's secondary digital stream channel 40.2.

Program Title Ocean Mysteries With Jeff Corwin

Origination Syndicated

Days/Times Saturdays 8:30AM (1/3/15-3/28/15)
Program Regularly Scheduled

Total times aired at regularly scheduled time 13

Length of Program 30 mins

Age of Target Child Audience from 13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode the viewer is able to connect with these animals and learn how important they are to all life on the planet as well as how sea life connects to life on the rest of the globe. This program will air on the station's secondary digital stream channel 40.2.
