Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Kuzco, a youth who is heir to the throne of a mythical Andean country, must graduate from Kuzco Academy before he can become Emperor of his land. He lives with a peasant foster family and faces the intellectual, physical and social challenges that all teens face, while also preparing to rule justly and well. Sometimes Kuzco wonders whether being Emperor for the rest of his days will be a pleasure or a trap. Kuzco thwarts attempts by the nefarious Yzma and her henchman, Kronk, to stop him from doing well in school. If Kuzco were to fail at his class work, Yzma would become Empress. Kuzco struggles to complete his assignments and stay on track. Only if he remains steadfast, studies hard, learns from his mistakes, and can relate to citizens at all levels of society, will he ascend the throne. His best friend Malina, an excellent student, attempts to help Kuzco stay out of trouble and achieve his goals. Series episodes explore issues such as coping with peer pressure, respecting authority, taking responsibility, adhering to family and school rules, accepting differences, building self-esteem and trust.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Riley and Todd, siblings who were raised in an orphanage after the death of their parents, long to be adopted. They find a comic book advertisement for Fleemco, an agency that will provide "Replacement" parents or adults to substitute for certain individuals. Brother and sister decide to send in the \$1.98 fee in hopes of obtaining parents to replace their lost ones. They acquire an unorthodox pair of Replacement parents, Dick Daring and Agent K. Dick is a former daredevil stuntman and Agent K is a British super-spy. Neither seems to know much about parenting, although their intentions are good. Agent K's highly intelligent automobile, C.A.R., her former spy partner, also joins the household. Their attempts to forge a family and adjust to a new school are both touching and comedic. Riley and Todd discover that they can call Fleemco to request replacement of any adult whom they dislike, who is overly strict, or who is merely uninteresting. The temporary Replacements for teachers, neighbors or other community figures never prove to be as exciting or fun as the siblings had hoped, and are often immature and obnoxious. As things go awry, Riley and Todd learn that they need adult leadership, discipline, role models, order and structure. By the end of each story they are eager to return the Replacement and reinstate the original adult. Stories revolve around issues such as cooperating with household/family rules, taking responsibility, fairness, building self-esteem, and trust.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Raven Baxter, who has inherited her grandmother's gift of clairvoyance, is a normal, happy young woman. Nonetheless, Raven sometimes worries that she is a freak because of her clairvoyant abilities. She has a ten-year old brother, Cory. They are typical siblings, with the tension and rivalry that most siblings experience. Raven and Cory's mother is in law school, and their father owns a small restaurant. Raven attends an ethnically diverse San Francisco public high school. She is responsible for the after-school safety and activities of Cory. Her closest friends, Chelsea and Eddie, are fiercely committed to environmental issues and sports, respectively. Raven dreams of a career in fashion design, and the new season's episodes revolve around her internship with an eccentric fashion designer. Raven's parents and close friends know about her "visions". These premonitions often prompt her to intervene before trouble occurs. Sometimes her interventions backfire, and at other times the foreseen events occur, bringing embarrassment or sadness. She learns valuable lessons from her transgressions. "Visions" set up issues that the Core episodes of this series explore, among which are sibling rivalry, popularity, loyalty, self-acceptance, jealousy, dealing with authority, and consequences of lying or cheating. The Saturday, August 27, 2011 episode was preempted for ESPN on ABC live network coverage of the Little League World Series.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Thirteen-year-old Miley Stewart, recently moved from Tennessee to Malibu, CA, leads a double life. By day she attends public high school, along with her older brother Jackson, but by night she is emerging pop star "Hannah Montana". Except for her family, only her two best friends, Oliver and Lilly, and her bodyguard know about Miley's career as a singer, and she strives to maintain privacy, fearing that her new classmates would treat her very differently if they knew of her stage identity. Miley wears blonde wigs while performing, and manages to escape being recognized. Miley's mother died three years before the story begins, so her dad is now a single parent. He has just begun dating again. Miley misses her mother very much. One of the songs that she writes and performs is about the pain of growing up without her mother. Unlike her brother, Miley is a dedicated student. At school, her enemies are Amber and Ashley, two girls who constantly bully Miley. Oliver and Lilly are fiercely protective of their friend. Miley has ordinary teenage insecurities, but remains true to herself, despite the allure of concert life, the limos, parties, and glamorous clothes. This is in no small part due to the solid values that her father, Miley's manager (Billy Rae Cyrus), has imparted. Tension and sibling rivalry do occur, especially when Jackson feels that his talented sister is getting all the attention. Stories examine social issues such as peer pressure, integrity, family rules, jealousy, friendship, loyalty, and issues related to bereavement. The Saturday, August 27, 2011 episode was preempted for ESPN on ABC live network coverage of the Little League World Series.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Those episodes of "The Suite Life of Zack and Cody" that air on ABC as Core Programming deliver life lessons tailored for the older child and "tween" audience. Stories take place in a luxury hotel in Boston, where twelve-year-old identical twins Zack and Cody live with their divorced mom, a lounge singer for the Tipton Hotel. The boys attend a local public middle school. One of the twins is polite and shy and excels in academics, while the other, athletic and extroverted, barely scrapes by in school, due to lack of effort. He often instigates wacky plans for outwitting hotel authorities, caregivers, and their mother. The boy's mother dates and would like to remarry. Their father is a professional rock musician who is on the road much of the year, but stays in touch with his sons. This sets up occasional parental conflicts about discipline and expectations. Parallel stories involve two teenage girls: heiress London Tipton, whose father owns the hotel, and Maddie, a girl who works after school at the hotel snack bar. Unlike London, Maddie attends a parochial girls' school and comes from a working class Boston family. Series episodes explore sibling rivalry, conflicts with parents, divorce, household and hotel rules, family budget limitations, responsibility, self-esteem, and peer pressure. The Saturday, August 27, 2011 episode was preempted for ESPN on ABC live network coverage of the Little League World Series.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Edgemont Edgemont is a television program designed for middle and high school students age 13-16 years-old and is rated TV-PG Originally produced by Canada's public broadcaster, CBC, the series depicts the everyday lives of teenagers in the fictitious suburban town of Edgemont. Each 30-minute episode generally focuses on the children's activities at AC McKinley Secondary School Edgemont is designed to entertain its core teen audience and also to inform and educate its viewers about issues that arise in school and at home. The storylines focus on social and emotional challenges faced by all secondary school students, from forming and maintaining family, friendship and romantic relationships, to ethical and moral choices. The objective of the series is to demonstrate models of behavior for teen viewers, allowing them to consider choices that they themselves may face, to witness the potential outcomes of these choices and gain possible tools that they can use to resolve issues and conflicts in a constructive way. Most scenes occur in and around the McKinley School and the teens' homes and follow the interactions of the teens. School work is taken seriously, depicted through characters studying in the library, receiving or discussing grades or doing homework at home. The cast portrays teenagers in a realistic manner with diversity along physical, social and ethnic lines, providing opportunities for most viewers to identify directly with specific characters. Each episode advances a few specific storylines based on particular social or emotional issues and takes them to a new conclusion. Characters act out behaviors that bring these issues to the forefront, and they solve problems, generally without intervention by adults but through communication with peers and direct action, which leads to a better understanding of each situation and each other. At the same time, actions do lead to consequences, and the outcomes provide a "life lesson" that is plainly evident but conveyed to the viewer in a natural way. It is anticipated that, on viewing Edgemont, teen viewers will compare their own behavior to those of the characters, and the series may provide a vehicle for them to openly express to peers, and potentially teachers and parents, their own ideas and concerns relating to the issues portrayed. Parental viewing may also provide parents an additional perspective on the developmental process and social and emotional pressures in their children's lives. The series also touches on significant societal issues, which is intended to inform teens on these topics, stimulate conversations among teen viewers and potentially complement classroom discussions. These issues range from considerations of diversity, racism and sexual identity, to divorce, teen pregnancy, bullying and alcohol and substance abuse. The series website provides additional materials, including Study Guides, to assist educators and parents in stimulating discussion of Edgemont with teens.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>For young people today, new information is generally no more than a mouse-click away. Knowledge is readily there for the taking if kids simply know how to appropriately access it and effectively make use of it. In this context, many of the most useful and important things that youngsters can learn center on discovery, analysis and problem-solving - how do kids get the right" information and make proper use of it. What questions should be asked? How does one assess veracity? How does one weigh alternatives? How are decisions best arrived at? How does one decide when aims can be accomplished independently, and if help is needed, how does one go about enlisting support? Above all, how can goals be achieved ethically and with regard to the greater good. In an enticing new world filled with excitement, mystery, and danger, "Magi Nation" address these vital learning goals. Tony, Edyn and Strag along with their human and decidedly non-human colleagues model their successful, and sometimes less than successful, attempts to analyze difficult situations, set appropriate goals, and creatively seek solutions to the dire dilemmas in which they find themselves. In the course of a series of intriguing codes, riddles and other puzzles that Tony, Edyn and Strag are presented with along the way, viewers are furthermore given the engaging opportunity to not only observe others but go through the problem solving cycle, but to make use of their unique knowledge base and burgeoning problem solving skills t address conundrums on their own. The general learning goals and discrete educational objectives are fully integrated with the story-line, characters and settings that make up "Magi Nation." By focusing on the thrilling adventures of Tony, Edyn and Strag and the other forces for good in their battle with evil, the series provides young viewers with a non-threatening arena from which to observe and learn from the actions of others. Learning is attractive, natural and becomes part of the overall excitement of the series. This program meets the definition of "core programming" because it serves the educational and informational needs of children 17 years and under.</p>
