Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Pajanimals are a group of four preschool aged puppets who live together in house with their off-screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time, always turns into a discussion that results in a dream-like adventure to solve a problem, such as overcoming shyness, making a new friend, or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure, and the children return home confident, getting ample rest for today and facing their issues tomorrow.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time features and little boy, Justin, who wants very much to master his destiny, have great adventures, and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate, and Squidgy the morphing flying sponge, who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find another way to get to your goal. Justin is all about self-directed learning from the young child's perspective and imagination.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Make Way for Noddy is based on a recurring character in the Enid Blyton book series for very young readers. Noddy, a boy doll, lives in a little cottage in the village of Toyland. He tools around in his sporty convertible, delivers the mail, and is a friend to all. Noddy is surrounded by a large cast of other toy characters some of whom are mentors, and a few others who are mischief makers in Toyland. In every episode of Noddy, there is a challenge experienced by Noddy or someone else in Toyland that lends itself to a humorous and lighthearted resolution. Whether it's Martha the monkey getting her undoing for her selfish ways, Mr. Wobblyman learning to play soccer with no legs, or Noddy trying to assemble a kite, the characters in Toyland work out their issues and live together in harmony

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is an instructional series that features creating art projects and cooking projects around a specific theme. The show is hosted by Sean, who drives around in a double-decker bus fully equipped with art supplies and a kitchen, all ready for any assignment. The projects encourage parent engagement and often feature families working together to make something for display in the child's home. Sean is accompanied by Doggity, an every-faithful Beagle dog, who transforms into an animated character during interstitial trips to a parallel universe and kitchen full of prank playing animated characters. The art projects typically feature lessons on recycling materials for re-use in making art and always demonstrate that creativity can transform something intended for one purpose into something useful to achieve a completely different goal.

Justin Time features and little boy, Justin, who wants very much to master his destiny, have great adventures, and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate, and Squidgy the morphing flying sponge, who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find another way to get to your goal. Justin is all about self-directed learning from the young child's perspective and imagination.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dragon Ball Z Kai (known in Japan as Dragon Ball Kai) is a revised version of the anime series Dragon Ball Z, produced in commemoration of the original's 20th anniversary.[1] It was broadcast in Japan on Fuji Television from April 5, 2009 to March 27, 2011.[2] It features remastered high definition picture, sound, and special effects as well as a re-recorded voice track by most of the original cast.[3] As most of the series' sketches and animation cels had been discarded since the final episode of Dragon Ball Z in 1996, new frames were produced by digitally tracing over still frames from existing footage and filling them with softer colors; thus reducing visible damage to the original animation.

Program Title	ON THE SPOT - CW
Origination	Network
Days/Times Program Regularly Scheduled	SAT 1230P-1P
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT adopts a modified question and answer format familiar to broadcast network viewers, including the targeted age. The questions fall under curriculum core areas of knowledge in social studies, science, the arts, civics, and mathematics. The format allows for a wide range of topics and allows topics to be blended, which is a serious asset. The integration of core curriculum areas is a traditional goal in education and while ON THE SPOT doesn't support the deeper integration that would be done in a classroom, the energetic blend is a great example of taking curriculum out of their separate boxes and making them a uniform part of why knowledge can be important.
