Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The New Adventures of Nanoboy is an action-comedy about a boy who transforms into the world's smallest superhero to fight microscopic villains. Each week Nanoboy takes on bad-to-the-bone-bacteria -while trying to survive the biggest challenge of all- being a 10-year-old!Nanoboy harnesses and uses the power of science and technology to save his world from the meanest and ugliest villains around. In doing so, he teaches target viewers the elements of science and enticingly demonstrates how knowledge can be used to solve difficult problems and meet important aims. Discrete program objectives include To increase viewers' core knowledge base and appreciation of the world around them by presenting information across a range of scientific and technological subject areas, including botany, biology, computer science, genetics, geology, meteorology, entomology, ecology, astronomy and more; To provide viewers with other core-knowledge learning related to science and scientific investigation. This learning encompasses language and vocabulary, mathematics, and directions; To help viewers learn to thoughtfully assess situations and logically set appropriate and responsible goals; and To aid viewers to gain techniques associated with critical thinking and creativity in decision-making and problem solving with which to act. The 7:00am airing of this program was replaced by another E/I program, "Rescue Heroes" after 2 weeks.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In 2010, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on-the-street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. The program was preempted on June 29, 2013, due to technical error with network feed. The CW Plus and this station note that the preemption did not cause the station to fall under the 3-hour minimum E/I threshold for the week, as the station regular airs four hours of such programming weekly.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Elizabeth Stanton's Great Big World provides dynamic core programming in the areas of particular concern to young teens; including global, social, educational, and wellness issues. Award-winning teen hostess Elizabeth Stanton and select celebrity friends travel around the world volunteering in areas of specific need - ranging from feeding the hungry in the slums of Kenya to bringing hearing aids to Vietnamese neighborhoods whose citizens have experienced high rates of profound deafness and hearing loss. Great Big World offers a dynamic television experience for teens - combining the exciting, fun, and diverse experiences of world exploration with the life-changing volunteer opportunities available in these same areas. Various age-appropriate global issues are introduced to the viewing audience through in depth and thoughtful interviews with Elizabeth, her travel buddies, and the friends they meet along their journey. In addition, Elizabeth and friends' personal hands-on experiences in the field both inspire teens to engage in selfless, helping behaviors in addition to educating them on where and how to find volunteer opportunities. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.

Program Title	On the Spot
Origination	Network
Days/Times Program Regularly Scheduled	Saturday, 12:30pm
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In 2010, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on-the-street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.
