Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast!, based on the book series "Astroblast!" by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. The station is populated by five animal characters and one 3-eyed octopus of unknown derivation. Each episode begins with an everyday conversation or incident that grows into a predicament of some sort needing a solution. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to: keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or embarrassing incident, or resist the urge to blame others for your mistakes.

Tree Fu Tom follows the adventures of Tom a boy who straps on a power belt and through the power of movement magic called 'Tree Fu', can transform into a tiny, mighty magical superhero and travel to a wondrous enchanted kingdom called Treetopolis that exists inside a tree in his back garden. Tree Fu Tom encourages viewers to be active by jumping, making physical moves and saying specific words to "send the magic" to Tom. Tree Fu Tom combines its innovative elements of heroic action, fantasy and magic, coupled with unique interactive physical activity. All of the Tree Fu movements are developed from therapeutic techniques used to help children with movement disorders, and they are also designed to enhance the development of all children at a crucial time in their growth. While in the Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish, or relying on teamwork in order to accomplish a goal.
