Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	CHAT ROOM is a brand new half hour weekly educational series designed to inform, educate, and entertain children 16 and under, with a specific target audience which is 13 to 16, through reenacting teen oriented dilemmas and discussing them in an open and honest format. More than any other group, teens are on the front lines of dealing with complex subjects as they stand at the crossroads between childhood and adulthood. CHAT ROOM may not have all the answers but it offers a place where young people can watch and discuss the problems they face. CHAT ROOM provides a compelling look at real life situations that happen to todays teens as dramatized by teen actors. Our adult host and teen panel then discuss the issues presented in a direct and forthright manner. This program is not intended to be preachy or pedantic. The goal is to present issues that are real and raw and discuss the pros and cons of each situation in a free flowing environment.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On the Spot was created by the award winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30 minute E/I program for teens ages 13 plus, is based on the Common Core State Standards. The show uses an entertaining on the street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Elizabeth Stantons Great Big World provides dynamic core programming in the areas of particular concern to young teens ages 13 to 16 including global, social, educational, and wellness issues. Award winning teen hostess Elizabeth Stanton and select celebrity friends travel around the world volunteering in areas of specific need ranging from feeding the hungry in the slums of Kenya to bringing hearing aids to Vietnamese neighborhoods whose citizens have experienced high rates of profound deafness and hearing loss. Great Big World offers a dynamic television experience for teens combining the exciting, fun, and diverse experiences of world exploration with the life changing volunteer opportunities available in these same areas. Various age appropriate global issues are introduced to the viewing audience through indepth and thoughtful interviews with Elizabeth, her travel buddies, and the friends they meet along their journey. In addition, Elizabeth and friends personal hands on experiences in the field both inspire teens to engage in selfless, helping behaviors in addition to educating them on where and how to find volunteer opportunities.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Early and middle adolescence is an exciting yet a challenging period in ones life. Adolescents across the demographic spectrum and from all walks of life grapple with a number of pivotal but normal developmental milestones, such as preparing for more independence and responsibility, and experiencing change in relationships with family and peers. With increased self reliance, young people make more of their own choices. And all the while, one cannot overlook that they grow in a dynamic, diverse, and complex world that offers both opportunities and social challenges. The goals of the series are to encourage the 13 to 16 year old audience to explore, discover, and learn strategies to achieve personal dreams, learn about the personal attributes important for achieving dreams, explore volunteerism as an opportunity to build character and to uncover personal passions, and gain knowledge about life skills necessary to Live Life and Win.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It is during the adolescent years that career exploration, planning, education, and decision making begins. There is no question that a career in one of the multimedia industries is among the most popular career choices of adolescents. Although many feel their calling is for a more obvious on camera career in acting, there are also a number of behind the screen pursuits that make for fulfilling career choices. Made in Hollywood: Teen Edition was created by Connection III Entertainment Corp to provide career information and advice from top Hollywood professionals to 13 to 16 year old viewers so they can explore and learn about the technical, artistic, creative, business, and administrative careers that are a part of the motion picture, television, music video, and home entertainment industries To guide the production of Made In Hollywood:Teen Edition, Berry developed a career and guidance model that offers a framework for the development of each episode.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links the clips together is the connection between the differing members of the animal kingdom---including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The series Zoo Clues will keep 13-16 year-old viewers engaged for 30 minutes with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond its target audience, both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, Zoo Clues will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world.

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas remains on course as a program that is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The animal kingdom has an innate richness of color, form, and motion and Animal Atlas episodes are built from this richness. The thread that links the clips together is the connection between the differing members of the animal kingdom---including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.
