Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Cubix: Robots for Everyone takes place in the future where robots outnumber humans. Conner, a 13-year-old boy, and his robot, Cubix, belong to a special club called Botties. Each Bottie member owns a robot with a unique characteristic. This helps them in their good vs. evil world. Conner and his friends encounter the same situations and emotions that today's children face such as feeling sad and alone, insecure and vulnerable, fear of failure and phobias. They model behavior and techniques that young viewers can use to problem solve and overcome difficult situations such as teamwork, courage, loyalty, patience, humility, pride, perseverance and self-confidence. These lessons help them work to defeat the evil Dr. K.
