| | |
|--|--|
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The Real Winning Edge seeks to expose youth to other youth who have consistently made the behavioral choices that have helped them to have a greater sense of internal significance and acceptance, which results in a more self directed stable personality. They are more able to negotiate the "challenges" inherent in life. The youth who are chosen to be profiled on the series are chosen for their adoption of pro-social values and principles that have become the ethos of their behavior. Thus the characteristics demonstrated by the stories of these youth give rise to adherence to these sound choices that have given them "the real winning edge" in life, such as the following: discovering where their talents lie, and their pursuit of developing that "gift", developing and appreciation for honesty as a fundamental part of social responsibility to others. Youth interviews demonstrate a real sense of compassion and concern for other people no matter what the person's station in life might be. Developing a sense of self discipline by learning to balance school work with social activities, freinds and develeopiong their sense of mission and purpose in life. Developing a sense of internal acceptance that allows them to stand against activities that can hurt themselves as well as others, such as substance abuse, violence, promiscuous sex, etc. The Real Winning Edge promotes the values through these very engaging positive youth role models, who are introduced by celebrities in the same talent field as the youth. The celebrities reinforce the values by calling attention to these youths' qualities as they are exhibited in the program. |

| | |
|--|---|
| Age of Target Child Audience | 13 years to 16 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | On The Spot is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are given by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people is essential. It means that anyone can own information. The fact that young people will see this on television in a non-academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Green Screen Adventures sparks enthusiasm for writing through age-appropriate sketch comedy, original songs, puppetry, and story theatre. The stories are based on the writing of elementary school students, ages 7-13. Children get the message that their words have power, that their voices are being heard. Our diverse Green Screen company of performers and writers reinforce critical writing skills and share positive social messages. Our educational mission emphasizes the four "C"s as well as the three "R"s - Curiosity, Confidence, Citizenship, Compassion. | |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Mad About is a half hour sketch- comedy/ variety show aimed at educating and entertaining kids ages 13 to 16. A true E/I series, episodes use a creative mixture of humor, improv, animation and viewer-generated video. Mad About conveys important messages about life skills such as personal finance, health & nutrition, fitness, conservation, and decision making in a fun and entertaining way. Each TV episode relies on a small company of skilled comedic actors to explore significant topics within a subject area. It incorporates comic monologues, sketch and improv comedy, eye-catching animation, music videos, humorous "man on the street" interviews, and viewer-created questions about life's issues. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>On The Spot is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are given by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people is essential. It means that anyone can own information. The fact that young people will see this on television in a non-academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person.</p> | |

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

Mad About is a half hour sketch- comedy/ variety show aimed at educating and entertaining kids ages 13 to 16. A true E/I series, episodes use a creative mixture of humor, improve, animation and viewer-generated video. Mad About conveys important messages about life skills such as personal finance, health & nutrition, fitness, conservation, and decision making in a fun and entertaining way. Each TV episode relies on a small company of skilled comedic actors to explore significant topics within a subject area. It incorporates comic monologues, sketch and improv comedy, eye-catching animation, music videos, humorous "man on the street" interviews, and viewer-created questions about life's issues.
