**Digital Core  
Programming**

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	3.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series is a part of the new 2-hour block of STEM based E/I programs titled XPLORATION STATION. Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. The host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location he visits. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. Viewers may visit gigantic glaciers and behold their beauty, but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom as they strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding interest in the field of STEM education.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series is a part of the new 2-hour block of STEM based E/I programs titled XPLORATION STATION. This new half-hour weekly series, produced for the 13-16 target audience, will attract viewers of all ages. Each week the host, Emily Calandrelli, will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch the host try to perform every day responsibilities while floating in zero gravity. Viewers may explore the challenges that come along with living on a different planet as the host lives like an astronaut in a Mars-like habitat. There will be episodes on space robotics, commercial space tourism, asteroids, and the search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content that is shown.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series is a part of the new 2-hour block of STEM based E/I programs titled XPLOATION STATION. Xploration Animal Science, produced specifically for the 13-16 demographic, is an animal series with a uniquely scientific approach. While most animal shows look at the behavior of animals, Xploration Animal Science goes one step further to look at how and why an animal is able to excel in its environment. This series uses animation, graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of amazing animal creatures. This is a program that all animal lovers will watch and learn from. Xploration Animal Science is a half-hour weekly E/I series produced with the intention of increasing and expanding interest in the field of STEM education.
