Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Take a riding stable devoted to teaching dressage to young people, mix in half a dozen "tweens" from very different backgrounds, and a stable full of jumping horses who, when people are not around talk to each other; add to the conversation the voices of one supercilious cat, one very curious pig, and a wise, old barnyard-dog, and you have a recipe for an almost unending supply of stories about how kids can learn to get along, accept responsibility, and develop self-confidence, self-esteem, and a strong, positive character. This isn't just a stable where kids learn to ride and take care of their animals. It's a microcosm ... a small world in which three pre-teen girls and a boy encounter and learn to resolve many of the same kinds of problems and issues that most kids face in their daily lives as they struggle to become positive, productive adults.

Program Title	(26.2) Animal Atlas
Origination	Network
Days/Times Program Regularly Scheduled	Sundays @ 9:00 a.m. & 9:30 a.m. November 3 - December 29, 2013
Total times aired at regularly scheduled time	18
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ANIMAL ATLAS is entertaining and engaging to a wide audience while managing to deliver information that would be very welcome in a middle or high school classroom. The series matches the evolved visual intelligence of the young 21st century audience by building content with short clips, five-seconds or less in length, and weaving them together in a narrative that keeps a viewer engaged with a compelling narrative overview. The thread that links the clips together is the connection between the differing members of the animal kingdom - including our own species. In a compelling blend, animal examples are pulled from both common experience, such as the horse and cat, and exotic animals like the clouded leopard and the red panda. As the nature of animals is explored, the content and clarity create a program of exception education value.

Program Title	(26.2) Zoo Clues
Origination	Network
Days/Times Program Regularly Scheduled	Sundays @ 10:00 a.m. & 10:30 a.m. November 3 - December 29, 2013
Total times aired at regularly scheduled time	18
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The series ZOO CLUES will keep 13 - 16 year-old viewers engaged for 30 minutes with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond its target audience, both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, ZOO CLUES will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of ZOO CLUES links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world.

Program Title	(26.2) On The Spot
Origination	Network
Days/Times Program Regularly Scheduled	Sundays @ 11:00 a.m. & 11:30 a.m. November 3 - December 29, 2013
Total times aired at regularly scheduled time	18
Length of Program	30 mins

Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ON THE SPOT is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. It tapes into fact retrieval in the curriculum, expands the information beyond fact retrieval, and most importantly, it addresses what educators call non-cognitive factors for student success. These factors include self-esteem and frames in which students see learning occurring.
