Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	SHELLDON is an animated series that takes place in Shell Land, a mythical undersea world populated by characters from a wide array of water-dwelling species. The main character, Shelldon, is an orphaned yoka shell mollusk adopted by the Clam family and living with them in the family-owned Charming Clam Inn. Dr. Shell, an elder and venerated inventor, and Connie, a cowrie shell classmate of Shelldon's also live at the inn. Shelldon and his buddies, Herman (a hermit crab) and Connie (a cowrie shell), always work together and solve problems that they face in school or in the community. A recurring problem is to staunch the plans of the local millionaire, Cecil Cracken, whose greed puts making money over protecting the environment. Dr. Shell is typically the children's key provider of knowledge and other resources. In each episode, the children learn a significant social-emotional lesson and also share information relating to their ocean habitat and environmental protection.

She lives among a dozen assorted characters, including her fairy best friends, Opal and Jasper, a garden elf, a wood nymph, possum, bats, other fairies, rats, a small colony of fleas, a lizard and her arch-rival, Saphira, who is also her fairy cousin. While Pearlle is very likable, she is a bit of a busy-body who likes to arrange things according to over-ambitious plans that ultimately get her in trouble. She gets along with everyone so, ultimately, every problem is solved and Pearlle learns a lesson. However, her greatest challenges are usually presented by her one enemy, the bully and diva, Saphira. Fortunately, Pearlle rises to Saphira's challenges, not with meanness, but by outwitting her. Overall, learning is a constant process for Pearlle because she has big responsibilities, taking care of an entire little community, but she is indomitable and tenacious and ends up preserving order and happiness in Jubilee Park.

ANIMAL ATLAS is an entertaining and educational half-hour program that explores the world of animal wildlife, promoting a better understanding of how various animal species live and what they need to survive. With an entertaining narrative, the series combines focused examinations of certain topics such as Animal Appetites (which explores the various diets of animals along with information about how animals catch and eat their food, how diets determine their lifestyle, etc.), Animal Antics, (a hilarious look at the crazy physical antics and talents of certain species), Animal Babies (an intimate look at babies of various species, how they are born, how they are raised and the difficulties and delights of growing up), along with shows which focus solely on certain animals such as elephants, bears, and monkeys. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	TEEN KIDS NEWS covers a wide range of topics -- from hard-hitting facts about the Iraq war and life after Sept. 11 to ways to tell whether a boy or girl is right for you that are usually specifically tailored toward the teen audience. The show is anchored and reported completely by teens (both boys and girls) from a range of diverse backgrounds. Some topics may be difficult for sensitive younger teens, and some mature teens may find the format corny -- but for most, this series presents a peer-oriented opportunity for them to learn about real happenings in their world. Families can talk about the specific stories that are covered in each episode. Teens interested in a particular topic may want to dig up more information through the Internet or via a trip to the library.
