Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	504.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	12.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Total times aired	12
Number of Preemptions	0
Number of Preemptions for other than Breaking News	
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	5 years to 8 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The story takes place in a small town surrounded by acorn trees. Woobi is an elementary school student and a troublemaker. Woobi and his five friends are not interested in studying and only think about what to play. On the first day of the new semester, Woobi and his friends meet a stranger who looks like a penguin, at the Penguin Stationery store. This stationery store sells ordinary school items, like pencils and piggybanks, but also has curious objects, such as an odd sounding flute' and a Lamp of Aladdin. The friends become close with uncle penguin, who teaches them how to become responsible young men, even as they play with the objects that he told them not to touch. Woobi causes the most troubles and makes them into even bigger concerns whenever he tries to solve it by himself. This animated Korean language series teaches children the value of working together to problem solve and achieve goals that may seem beyond their capability. For children ages 5 to 8 years.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Based on the award winning book written and illustrated by Hee-na Baek. The children and parents who have experienced this delightfully imaginative book are sure to enjoy the TV series designed to be faithful to the unique art work and adventures of book. Each story begins with an introduction by Hongbi, an imaginative and lovable seven year old girl kitten, who serves as narrator. Her keen observation and fertile imagination record the adventures she has with her 5 year old brother, Hongshi, as they fly through the sky fueled by their mother's Cloud Bread! The children's stories are located where the children live, play and learn, at their home, their village and their school. Each cluster of three stories per half hour ranges from simple stories about everyday life to the dream fantasies of children and involve learning about life, responsibility and schoolbook lessons. The Cloud Bread series is designed to appeal to the imagination and wonder of children and the child within their parents.

Liaison Contact

Question	Response
Does the Licensee publicize the existence and location of the station's Children's Television Programming Reports (FCC 398) as required by 47 C. F.R. Section 73.3526(e)(11)(iii)?	Yes
Name of children's programming liaison	Victor Marino
Address	100 Valley Drive
City	Brisbane
State	CA
Zip	94005
Telephone Number	(415) 468-2626
Email Address	vmarino@ktsftv.com
Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	KTSF 26.3 is an all-Korean language channel, a time shifted transmission of the KBS America satellite feed (produced by KBS, one of South Korea's 2-major television networks). Regarding the E/I symbol - KBS America (KTSF Ch. 26.3) does not have English language graphic insertion capability. Further, KBS America suggest that, since the Korean language does not use Roman alphabet characters and, since their programming targets a Korean speaking audience, the E/I symbol will not make sense to their viewers. KTSF 26.4 content is produced in China and transmitted via satellite. Most of the programming is either dubbed or subtitled in English. KTSF 26.5 (Vietoday) is an all-Vietnamese language channel. With respect to item 14 - program schedule information for the Korean channel (26.3), the Chinese/English channel (26.4), and the Vietnamese channel (26.5) is made available to KTSF 1-3 weeks in advance of broadcast. Therefore, we are unable to provide advance descriptions of next quarter's core programming for these channels.
